#### ANOTHER SLOW WEEK

The House Will Not Do Anything Until the Latter Part of the Week,

ON ACCOUNT OF LACK OF A QUORUM

The House to Attend the Funeral Services in the Senate.

OPPOSITION TO THE NEW RULE SHOWN

But It Is Thought It Will Be Adopted. Georgia Members Regular in At-tendance-Other Gossip.

Washington, April 15 .- (Special.)-It may be the latter part of the week before the house can begin doing business again. While the committee on rules will be ready to report the new rule called for by the caucus, it will be several days before a democratic quorum can be gotten together in the house to adopt it. Tomorrow the house will adjourn immediately after meeting on account of the death of Senator Vance. The house will attend the funeral in the senate chamber in a body. All the the remains to North Carolina. Besides these three or four other democrats must go on the committee from the house. They will be absent nearly all the week. This takes the democrats away from the house and makes it that much more difficult to get a democratic quorum here to vote on the adoption of the new rule.

Thus it may be that the house will go along deadlocked by Reed and his republicans until Friday before the new rule can be adopted and the body can do business even with Reed fighting for delay. There are number of democrats who don't like the proposed new rule. They are protesting They seem to prefer to stay here and do nothing rather than adopt heroic methods to keep the machinery of the house in motion. Some of these men are talking about opposing the new rule, even though it is ocratic caucus measure. Should they do so and refuse to vote as the republicans whip may be applied with enough vigor to keep all democrats in line. The whip has when here it may be effective in keeping

Spaking of the large number of democratc absentees it is on the records to the redit of the Georgia congressmen that our delegation shows the greatest percentage of attendance upon the sessions of the ouse than of any delegation from any other state in the union. Deputy Sergeantat-Arms Ike Hill, who is the democratic

whip, said today:
"Two-thirds of the roll calls of this congress show all of the eleven Georgia members present and voting. The Georgians are the most attentive to their duties of my delegation in the house. I always know where to find every man of them. I wish some other democrats were like the Georgians. If they were there would be no necessity for the proposed new rule."

Not a Candidate.

"I am not a candidate for chief clerk of the state department," said Mr. Frank Gordon tonight, "and I do not want the place. It is true I was endorsed some time want no office. The story which has een printed all about during the past few days that I wanted the chief clerk's place frew out of a misunderstanding."

Some of Mr. Gordon's friends propose him for the place, but he says he prefers his present law practice to any government

Colonel Henry M. North, of Augusta, is one of the few Georgians who declines to accept a well-paying government office. Mr. North says he prefers to remain in the insurance business in Augusta among the best people on earth rather than have to remain in Washington to draw \$2,500 annually from the government.

THIS WEEK IN CONGRESS. Senator Vance's Death Will Disturb

Washington, April 15.—Senator Vance's much-regretted death will disturb many plans that had been formed for the week's business in congress. Both the senate and house will unquestionably adjourn in his honor soon after their meeting tomorrow. The late senator from North Carolina wa universally liked by his associates of both political parties. His genial personality arried sunshine wherever he went an will not be perfunctory merely. When the senate adjourned last evening

after a two weeks' debate on the Wilson tariff bill, there had been delivered during that time a total of nine speeches, and one of those, that of Mr. Mills, was impromptu plemented later on by a set speech from the they spoke: Senators Voorhees, Allison, Mills, Peffer, Hill, Lodge, Hale, Mitchell, of Oregon, and Quay. This does not appear to be a very large list of set speeches, the time consumed in their delivery considered.
Under the amicable agreement reached by
Mr. Harris and Mr. Aldrich the present programme of meeting at noon and dis-cussing the pending fill intil 5 o'clock will ued throughout this week with the erstanding that the depate is to begin on the paragraphs a week from comorrow The republicans at first thought they wou insist upon general debate for a longer period than three weeks, but they have abandoned that idea and appear to be ous to get into the discussion of the ill by items. There is no rule in the enate under which debate can be restricted and a speech consuming days can be made upon a single item or a general speech could be delivered upon a trivial amend-ment offered to the paragraph under dis-cussion. It is for this part of the debate cussion. It is for this part of the death that some of the leading speeches of both sides of the chamber have been reserved. Mr. Smith, of New Jersey, who was to have spoken tomorrow and whose speech had been been reserved. been looked forward to with much inest, will not speak until Tuesday because Mr. Vance's death. He may not even able to get in his remarks on Tuesday, cause of an agreement that on that day ere should be an executive session for

pecal purpose of considering the atter be disposed of and may insist that is agreement be carried out, the more so arrangements to leave the city Wednesday for a ten days' trip through his own state on political business. It would be very natural for Mr. Morgan to desire this treaty to be out of the road before he started. In that event Mr. Smith's remarks may be held in abeyance until Wednesday, but both Senators Morrill and Turple have given notice that they will speak on that day.

Mr. McLaurin, of Mississippl, who gave notice that he would speak on Tuesday, will also give way until later in the week The republicans who are preparing to speak are Messrs. Morrill, Perkins, Higgins, Hawley, Gallinger, Cullom, Dolph and Frye, while the democrats will be represented by Messrs. Smith, Mills, McLaurin, Turple and Palmer. Beyond these no senator has announced his intention of speak.ng.

In the House.

The course of legislation in the house this week will described.

In the House.

The course of legislation in the house this week will depend largely, if not altogether, upon the reception given to the resolution from the committee on rules to provide for counting a quorum in accordance with the decision of the democratic caucus last Friday. Of course nothing will be done on that matter comprove, because ione on that matter comorrow, because of Senator Vance's death. Despite the ex-pressions of republicans of a disposition to support the proposition, which were someto support the proposition, which were somewhat numerous yesterday, it is by no means certain that it will be adopted without opposition and delay. A leading republican, who early expressed a qualified intention to vote for the rule, is now doubtful of the expedience of giving the proposi-tion the support of the republican minority. "I think," he said, "it would be wise to let the democrats adopt the rule by their own votes. Unless they all confess their fault and make the rule possible by their united support I am afraid they may say later on that it is not a democratic measure any-how, and that it was roisted upon the house by a combination of democrats and republicans. Probably we had better let them decide the matter for themselves." Another prominent republican said he saw no benefit to come to either the republican no benefit to come to either the republican party or to the country by aiding the democrats to count a quorum and pave the way for the easy accomplishment of whatever purpose the leaders of the majority may form. He thought it might prove to be a dangerous power in the hands of the majority and was included to withheld ble jority and was inclined to withhold his vote from the scheme.

WHO'LL FILL THE PLACE

On the Senate Finance Committee Made Vacant by Senator Vance. Washington, April 15 .- The death of Senator Vance opens up some interesting conjectures concerning the change that will be made in the senate committee of finance, of which he was a member and upon which, for many weeks past, the eyes of the country have been focused. Owing to his illness, Mr. Vance took no part in the preparation of the tariif bill, but he was a factor during the fight for the repeal of the pur-chasing clause of the Sherman act and voted against a favorable report, worked, spoke and voted against repeal. Mr. Vance was always the friend of silver and much interest will attach to his successor on that committee, who will be named by a demo-

eratic caucus. it now stands since the death of Mr. vance is alive on the silver question, the pronounced silver men being Senators Voornees, harris, Vest and Jones, of Arkansas, among the democrats, and Jones, of Nevada, among the republicans. The gold men are Senators are rerson, democrat, and Snerman, Morrill, Amson and Aldrica. republicans. If the attitude of the demo-cracs during the light for the repeal of the Sherman act may be taken as a basis of judgment the saver men of the party was their own way of thinking. It may be that Mr. McPherson, and afterwards declined o serve further, may be put forward for this place, but the preponderance of the southern men on the committee may be ursed against this selection. Mr. Mills's experience in connection with tariff ques-tions would seem to equip nim especially as a substitute during the time the tariff only was in committee will add to his qualifications for the vacancy, should be

some western man on the committee, and if this is done Mr. White, of California would be the only available democratic senator. It has long been contended that some one representing the Pacific coast should be on this important committee and the matter will be brought forward in the ection of Mr. Vance's successor

Mr. Vance was the chairman of the con mittee on privileges and elections and the ranking members are Gray, of Delaware and Pugh, of Alabama, rut as both of these have chairmanships of important committees-Mr. Gray as chairman of the con mittee on patents and Mr. Pugh as chair-man of the committee on judiciary—it is not l.kely that either of them would care to change. Mr. Turpie, of Indiana, is next democrat in order and he may willing to leave the chairmanship of the chairmanship vacated by reason of Mr Vance's death. Mr. Turple's ability as constitutional lawyer would stand him i mittee. Should Mr. Turple make this change it is very probable Mr. White, of California, would be transferred from the committee on irrigation to that of the cen-sus. Still, irrigation is a subject in which the west is greatly interested and Mr White may decide that he can serve his section of the country better by remaining where he is. In that event Mr. Murphy, of New York, might be promoted from the

#### committee on relations with Canada to the head of the census committee. CANDIDATES FOR JUDGESHIP.

BUSINESS MEN WAITING ON THE TARIFF

Before Settling Down to Business-The Industrial Situation-The Late Dudley Field.

New York, April 14 .- (Special Correspondence.)—A leading southern democrat who heard Senator Hill's speech on the tariff said to your correspondent:
"I am against him, but Senator Hill is

a striking figure. Within the space of the past ten years he has grown from a common country lawyer to be the central feature in the most prominent deliberative body in the world. He is certainly a man of marvelous qualities. Without early advantages of education, he towers above the scholars who surround him like Gulliver among the Liliputians.

"He is bold in speech, fertile in oratorical expedients, often illogical, frequently ungrammatical, awkward, and ungainly in gesture. His speech is never ornate. Sherman, with his wide knowledge plucked from the tree of long experience: Morgan, with his smooth southern diction and clear logical thought; Davis or Voorhees, their ora torical powers trained to harmonize with all that is classical and brilliant in English speech-none of these can conjure such a multitude as the courageous and ready senator from New York. Will his tremen dous force expend itself battling with the relentless waves of adverse fate, or will he poise himself upon the crest of a tidal wave and conquer the storm by commanding it? Who can tell?"

The Industrial Situation. The people of this country will not settle down to business until the tariff question is settled. Bradstreet's, under the date of January 6, 1894, in answer to the question, 'Who are the unemployed?" gave the following answer, which was, doubtless, approximately correct: "New England, 65,-200 unemployed and 154,400 dependent; New York and New Jersey, 223,250 unemployed and 563,750 dependent; Pennsylvania, 151,-500 unemployed and 449,200 dependent; central western states, 227,340 unemployed and 443,310 dependent; northwestern states, 45,-700 unemployed and 175,800 dependent; Pacific coast states, 25,800 unemployed and 41, 000 dependent; southern states, 63,065 unemployed and 122,650 dependent; total unem-

ployed, 801,855; total dependent, 1,956,110." There is no reason to suppose that that great idle army, nearly two million strong when the year opened, is any less today than it was then.

Hurry up the tariff!

David Dudley Field. The lawyers are all discussing the late David Dudley Field, who died the other day in his ninetieth year. He began life with a Bible and \$10 in cash and died a millionaire with a world-wide reputation. Coming of a distinguished family, his success in the work to which he devoted himself was no less remarkable than that of his three famous brothers, Stephen J. Field, who became associate justice of the United who became associate justice of the United order that his wife might have an opportunity to make friends with his children betor of the Atlantic cable, and Henry M. Field, the editor and writer. The singular generosity of nature in endowing four prothers with signal and diverse talents was marked in the great jurist's case by a ready grasp of legal problems of all sorts, capacity for profound study and a knowledge of law which virtually comprised the

It was his high ambition to codify and arrange the principles of civil and penal law in such a way that they should come to be adopted throughout the world. How well he had already succeeded is shown by the present general use of his civil codes, preared in 1850 for the New York state legislature and now sanctioned by twenty-four states and territories and imitated in the codes of England and India, and in the adoption of his penal code by eighteen states. The sum total of his work in this line is virtually an interpretation and definition of the common law, and bids fair to

prevail as authoritative. One of his later tasks was the reform and odification of the law of nations, and in this, too, he met with success, his early movement in behalf of arbitration of international disputes being but the forerunner of the later movements toward the abolition of war. In his very busy life Mr. Field had thus completed a work which makes the world his debtor. According to one of the chancellors of England he did more for the reform of the laws than any man of his time. To have compassed such an achievement is to have lived a life for which the

Back to the Fold. that the mugwumps cannot be trusted. The time was years ago when the publications of the Harper Bros. gave support to the republican party. Then came the era of mugwumpism and the Harpers went with nany others into the camp of the enemy and surrendered. The revulsion has been a long time coming, but it is here. Harper Bros, are looking earnestly toward the mourners' bench, and a few weeks at the most, is expected to bring them to repentant knees. As proof of this fact is a check for \$1,000 just forwarded by Harper Bros., through the Union League Club, to the republican committee of thirty, which is now organizing the city for the fall campaign. In making the contribution, Henry Harper says: "We made a subscription to the fund of the committee of thirty because we realized that a good work was being done and we wished to have a hand in it. We are willing to do all we can to aid the committee of thirty, but we still declare our enmity to Mr. Platt as a political leader."

A Remarkable Gambler. Gene Case, who is to be buried today, was gambler who has been a familiar figure to New Yorkers for a great many years though it is doubtful if one-tenth of them could tell exactly who he was. He was a tall man, of athletic and attractive physique, with light hair, eyes and mustache body ever saw him lose his temper.

and he had a quiet and rather singular manner of talking at all times. His pet guy was the assumption that he was a man of great social and political importance. Whenever he was invited by a group of friends to go anywhere he would decline their invitation with some such careless remark as that he would have to look into the Union Club and read his foreign mail; that he had an appointment with the general of the army to play a game of ecarte, and then they were to dine together with Mrs. Astor; the off leader of his four-inhand had a mud fever blister on his hoof and needed attention, or some remark of a similar nature. Then he would smile in an amiable manner, and go off to the Hoffman house or some similar resort. It was always supposed that his tranquil and placid manner was assumed to conceal his emotions under the laws laid down so ably by John Oakhurst, gambler, but as a matter of fact, Mr. Case's tranquil manner was dictated by the fear which always haunted him that any sudden excitement would bring on disease of the heart, of which he was always in mortal dread. It is curious that in the face of this fear he should have pursued such a successful speculative career.

#### SHOT HIS DAUGHTER'S BETRAYER. mand. Followed by a Shot.

Chattanooga, Tenn., April 15 .- Two aristocratic families of Sevierville, in this state have been brought into deepest trouble by the indiscretion of the son of one of the families and the daughter of the other. For a year or so John Mulledese, son of Lafayette Mullèdese, has been devoting himself to Mary Montgomery, daughter of Captain Robert Montgomery. The girl's parents demanded an explanation and she named Mulledese as her betrayer. The father of the girl took his shotgun and went after the young man. He met him in company with his father.

"Marry my laughter or I will kill you!" the girl's father said. Young Mulledese said he would not. The ther raised his gun. The boy's father put his hand to the muzzle of the weapon to save his son. The discharge blew his hand off and killed the young man as well.

Death of Rev. Spruillee Burford. New York, April 15.—The Rev. Spruillee Burford, pastor of the Episcopal Chuch of of the Intercession, died this morning. About three weeks ago he had an operati performed on his cheek for the removal of a carbuncle. Blood poison set in, and this was the cause of his death. Dr. Burford was fifty-five years old. He was born in Harrodsburg, Ky., and graduated from St. Charles college, St. Louis, in 1853. He afterwards became a professor in the high school at New Orleans. At the breaking out of the war, Mr. Burford became adjutant general of the Louisiana forces, and served throughout the war, in the confed served throughout the war in the confederate army with great credit.

BILL TO AMEND THE CUSTOMS TARIFF

Caused Some Surprise When Introduced in the Reichstag-The New Parliament Building-Other German Gossin.

Berlin, April 15 .- (Copyrighted 1894 by the United Press.)-Dr. Miquel, Prussian finance minister, will give Wednesday the last dinner of the present parliamentary session. It will be a grand function. Chancelor von Caprivi, all the Prussian ministers and a host of imperial deputies have been invited and hardly a tendency of modern political life will be unrepresented. The dinner cannot be said to celebrate the success of Miquel's financial projects, which still stick fast in committee. It is meant rather to disapprove recent reports that his official position is shaken. He does not intend to give up his plan of financial reform. He still hopes for better luck in the reichstag. On

Friday he told several intimate friends that he expected events would soon convince the people of the necessity and justice of his tax bill. The federal states, he said, would soon discover that the decrease of the grain duties would affect their exchequers unfavorably. Moreover, the recent reduction of the estimates by the budget committee of the reichstag would necessitate an increase of the matricular contributions from the federated governments. These conditions would tend to coerce, public opinion to the acceptance of the imperial wine and tobacco taxes, or perhaps even to new beer and spirit taxes. While holding that the bills now before the reichstag were the best yet formulated for the purpose, Dr. Miquel declared him-

self ready to discuss other proposals. Although now rather closely affiliated with the conservatives, Dr. Miguel does not favor their projects of a government monopoly in spirituous liquors and an import tax on wool. The wool tax, it is estimated, would produce an annual revenue of 60,000,000 marks and would be a fine thing for a few wool growers, but it would wipe out the German manufacturers of woolen goods. As yet no party or memoer of the reichstag has proposed an alternative plan of any particular value for raising the necessary revenue. Aalthough temporarily thwarted, Miquel holds the field. At his suggestion the government yesterday introduced a bill to amend the customs tariff by raising the taxes on cotton seed oil, co-

coa oil, perfumeries and ether. How the Bill Was Received. The bill was a surprise to the reichstag,

but lobby opinion formed quickly in its favor. The difficulty of keeping the deputies to their duties continues. Half of the seats in the house were empty all the week and many hours passed without the presence of a quorum. Even during the debate on Count von Kanitz's proposal for a state monopoly of the import grain trade there were great gaps in the ranks of every party. Chancellor von Caprivi's speech on Count

von Kanitz's motion in the reichstag yester-day was one of the ablest efforts of his public career. He drew clearly the lines between the conservatives and the govern ment. What the conservatives were present to call a new and dangerous commercial policy, he said, could not be shown to have mperiled a single German interest. On the contrary, the statistics of every year the reciprocity policy had been relopted showed the extension of German compence; the increase of German exports. Count von Kanitz's proposal was calculated to do great harm. It tended to sow discord betwen the empire and foreign countries. It was designed to rouse enmity between the cities and the rural population and shake the fundament of German unity. For purely selfish ends, from motives of narrow class interest, the conservatives were seeking to overthrow the fresent advisers of the emperor. While they were not likely to effect their purpose, they would accomplish some other things much less to their liking. The present agrarlan agitation, if continued, must bear fruits unwelcome to everybody desiring the peace

and prosperity of the empire.

The speech had a powerful effect upon the decision to offer the conservatives no terms involving the sacrifice of its policy

A large space has been allotted for the press and public galleries. The floors are of mosaic and marble and the windows are gorgeously painted. The gen-eral arrangement for the parliamentary correspondents is in harmony with the spirit of the times, and they far surpass anything that was ever dreamed of under the Bismarckian regime. The opening of the new building will be attended with any amount of pomp and ceremony. Among those present will be the emperor and all the German princes, representatives from every cabinet in Germany and deputations from every duly constituted parliament in Europe, or, perhaps in the world.

has declared in an open letter, his desire to retire from parliament. He remains in pubing his party, which has never recovered from the rupture over the army bill. His letter is regarded as an indication his conversion from his former democratic views to the opinion of Huene, Schorlemer-Alst and Ballestrem, whom he helped to drive from the party in the last general election. If Lieber succeeds in bringing the aristocrats and democrats of his party tofound it-the strongest party in the reichstag. His followers, however, are not alto-gether pleased with his desertion of the lemocratic element. A strong group among them will probably overthrow him before he can accomplish his task, and will go their own way, leaving the Catholic noblemen to form a separate faction.

The Emperor on a Hunt. Emperor William, who is the guest of the grand duke of Baden, will hunt for two days in the neighborhood of Carlsruhe and then will proceed to Coburg to attend the wed-

ding of Princess Victoria Melita and Duke Ernest Ludwig. Letters from Vienna say that the emperor distinguished himself by joviality and good fellowship at the Hussars' luncheon on Friday. He clinked glasses with several officers of the regiment, drank an unusual quantity of champagne and dispensed decorations right and left. To Count Starhemberg, winner of the longdistance race between Vienna and Berlin, he gave a silver snuff box set with dia-monds. Frau Sacher, who provided the luncheon, showed the emperor with great HE IS TRUE TO DEMOCRACY pride a table-cloth on which were em-broidered the initials of the long-distance riders. The emperor admired the tablecloth so openly that eventually he received it as a memento of the occasion. There is no doubt that by his visit to the barracks the emperor enhanced his popularity in the

Austrian army. Bismarck's Health Improving. Prince Bismarck will go to Varzin in June, and later, despite the recent declaration to the contrary, he will make his annual visit to Kissingen. The Koelnische Zeitung says: "Prince Bismarck's daily walks are growing longer and his health is better than in years. With the return of self-confidence he has relaxed into his old habit of occasionally disobeying his doctor's orders as to his diet and drinking. He feels agan the keenest interest in politics and is especially dis-turbed by the anti-agrarian policy of the government. His friends expect an early

sion of his opinions or his efforts to in-nuence the public mind." Anton Rubinstein, the composer and planist, said in an interview on Wednesday that he was about to retire from public life. He would pass the rest of his days on his estate in Russia, he said, and under no circumstances would he then consent to re-turn to the concert stage, as he had had

His discourse dealt principally with the dignity and honor of labor. The church, he said, honored saints mainly to set up models for its people. Joseph, so near to God, was a workingman and the work personified in him, de-manded our recognition. Jesus, the son of Joseph the carpenter. Himself performed to eat bread by the sweat of our brow, and the use and development of our faculties was a law of nature. The rich had no right to use what they had to suit their own whims; they were tenants of God, who was the supreme property owner. As to the rights of the workingman, he said that he had a right to a time for rest, for devo tion to his family, and religion, and for his own improvement. He had the right, also, to seek amelioration and advancement; but he must, however, bear in mind the fact that there were duties he owed to society. They owed to society a recognition of social order—a respect for life and law. Inequality was necessary in the world, and so was capital. Those who had no more am bition in life than to gain a livelihood by begging from house to house and village village, had no right even to what they of tained. He urged the working people to have patience while striving for advancement. He said this was an age of evol tion, of transition; looking more to practical democracy and fewer extremes

#### COXEY RETURNED TO CAMP And Fired His Son and the "Unknown

Carl Browne in Charge. Curl Browne in Charge.

Cumberland, Md., April 15.—The once famous "Unknown" of the Coxey army, and Jesse A. Coxey, son of the commander, were compelled to leave the camp today, and Carl Browne, the deposed leader, tonight had entire charge of the body. Coxey returned to the front this morning and as a result of his investigation of the revolt of leave energing he potified the "Unknown". a result of his investigation of the result of last evening he notified the "Unknown" and Jesse Coxey that they had grossly violated the regulations of the commonweal and were discharged

Coxey told the men that the "unknown"

would have to go, and if the men wanted to abide by him, they could, but he (Coxey) would not allow any of the commissary wagons to go with them. This decision was accepted by the men without murmur, and the "unknown" and Jesse Coxey left Kelly's Crowd at Omaha

Omaha, Neb., April 15.—The Kelly industrial army, on its special train of box cars eached Omaha shortly after 8 o'clock norning, and was halted at Sheelin station, in the southwestern portion of the town.

Sixty policemen were on hand when the train stopped, and superintended the transferring of the provisions to the amy's train. Commander Kelly was notified that as soon as the goods are safely on board the train would proceed to Council Muffs before the men could stop to prepare breakfast. Mr. Kelly assented, and they men made no complaint. A large crowd of curious people were on hand when the army arrived and watched with interest until the train again started on its way, at 9 o'clock, and started across the river.

#### THE RINGING WORDS

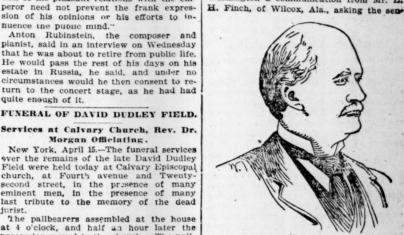

Of Alabama's Gallant and Noble Sea ator, John T. Morgan.

And Will Not Be Led Off After Strange Gods,

THOUGH THEY WEAR GILDED FACES

Reasons Why the Alabama Democracy Cannot Afford to Endorse the President's Policy.

Birmingham, Ala., April 15 .- (Special.)-Like a majority of the denocrats of Alabama Senator John T. Morgan thinks it is by no means incumbent on the state convention of Alabama to endorse the Cleveland administration, and he does not hesitate to give his views in the matter. A few days ago Senator Morgan received at Washington a communication from Mr. L.

SENATOR MORGAN.

on the proposition to have the state conve tion endorse the administration. Senator Morgan answers this query .... 18:

Morgan Writes Sharp. "Dear Sir: You ask me as follows, 'Are you willing that the state convention should endorse the administration? Friends are canvassing Wilcox county for you and wait your answer.' I do not see that it is a duty of a convention called to act upon matters sociation and the alumni of williams college.

The Rev. Dr. Morgan, rector of Trinity church, officiated, assisted by the Rev. Dr. Henry Y. Satterale, the Rev. C. C. Tiffany and the Rev. W. Stanley Emery. At the conclusion of the services, the body was borne into the vestry room of the church, while the organist. Dr. Hale, represendence "Lead Kindly Light" and "Abide constituents on that subject, and such constituents on the proper government of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. We have convenient of Alabama, to either approve or condemn a federal administration. that relate to the proper government of Althe church, while the organist, Dr. Hale, their constituents on that subject, and such nodered "Lead Kindly Light" and "Abide questions, except under conditions that are questions, except under conditions that are unusual, and of pressing necessity, should be left to them. These conditions do not escape a veto. I do not approve that attitude of these executive officers. I am in-Archbishop Ireland Alludes to It in a formed that this attitude is not adopted by all the members of the cabinet and so, as Washington, April 15.-Archbishop Ireland, to that matter, I agree with a portion of of St. Paul, Minn., whose close personal relations with Pope Leo and with his immediate personal representative in this city, the apostolic delegate, Archbishop Satolli, lend in the coinage law of 1792, which was ap day which was understood by the large congregation who listened to him to have a and again by Andrew Jackson, president, in 1873. In the act of 1792, the language is as follows: Sec. 14, 'That it shall be lawful for any person, or persons to bring to the said mint gold and silver bullion in or der to their being coined; and that the bullion so brought shall be there assayed and coined as speedily as may be after the receipt thereof, and that, free of expense to the person or persons by whom the same shall have been brought.'

"In the act of 1873, the language is as follows: Sec. 14, ' That gold and silver bullion brought to the mint for coinage, shall be received and coined, by the proper officers, for the benefit of the depositor.

Will Stand by Silver "Now, as long as there is any hope of bringing our laws back to these democratic standards, I will be found contending, as a democrat, that we should faithfully persist in restoring these great rights and privileges to the people. These laws are the only means the people have of 'coining' their labor into money, without the help of the banker. The right enables the people to supply the only real money of the constitution to the country, and is the only check which they can ever employ with any degree of success, to the power of capital and credit. If we take both these rights from from them. If we can take either we can take both; and this is the real power that the gold party and bond party demand that the people shall surrender to them. I shall never 'endorse' or approve such a demand. and no man can be a true democrat who re quires of me that I shall do so. Such a requirement as a test of any man's democracy, is only another part of the tyranny there is at the foundation of this raid upon the constitutional rights of the people. In all other measures of government but not in all other policies of administration, I approve the attitude of the present 'administration.

"I do not approve the issue of bonds, un der a law that is virtually obsolete to buy upon. That is a policy of the republican party, inaugurated by John Sherman, and it should not be resurrected and put again in force merely because a democratic secretary cratic congress for an issue of bonds to buy gold; while refusing to coin the silver bullion now in the treasury. I cannot endorse that policy, and will endeavor to assist the 'unterrified democracy' in holding the old fort, until we can get a secretary who is not afraid of a democratic congress; and we will do our fighting inside the party lines.

against Aegro Domination. negro as envoy extraordinary and ministe plenipotentiary to a republic like Bolivia. No matter how good a man he may be, a negro is no more a suitable representative of the people of the United States, in a foreign court, than a Chinaman or In would be. This policy is both wrong an

ngerous. I do not endorse it. I should not be required to endorse it by a stat cratic convention in Alabama.

"Before I can give to this 'administration my unconditional endorsement, I wish to see will be done with the odious state bank tax, which rests like a brand of a tyrannical persecution, burned into the fair brow of the sovereignty of Alabama. I would endorse almost anything to clear off that indignity and to free the people of that only shackle now remaining riveted upon them as a relic of their vain struggle for their rights under the constitution.

The President is honest. "I heartily endorse the honesty of our president, just as I endorse with equal condence the honesty of the six millions of democrats who elected him to the presidency. And I endorse his firm adherence to his convictions of duty, just as I endorse the same virtue, in the mind and heart of every sound democrat. I believe I am in full and hearty accord with the administration on the pending bill to reform the tariff; but it covers a vast number of items of taxation and no one can now predict what its provisions will be, until it is finally acted upon. If I can have the opportunity, I will cheerfully vote for the tariff bill as it is reported by the committee of the senate.

"I could not answer your telegram with greater brevity without misleading you as to my views on some important subjects in regard to national politics that are being unwisely thrust into our domestic affairs in

"I endorse, in advance, the nominee of the democratic state convention for governor, and knowing he cannot be better, I hope he may be as good as the democratic party of

"I will fight for the democracy under any leader the convention shall name, without giving attention to his uniform, if he wears any, but I should prefer that he should wear the colors of 'The Old Guard.' Yours truly, "JOHN T. MORGAN."

#### THE SITUATION IN ALABAMA.

How Rich's Retirement Was Received Captain Johnston Gaining. Mobile, Ala., April 13 .- (Special Corre-

spondence.)-The sudden and unexpected ncement in The Mobile Register that the Hon. J. C. Rich had withdrawn from the gubernatorial canvass fell like a thunderbolt from the not over-clear skies that lowered above the three candidates. This Burprise was heightened by the fact that large advertisement as having cor to address the people of Mobile at a courteting to be held Saturday evening. No intimation of any other intention had been made public; and the readers of The Register rubbed their eyes twice before taking in the full fact of the situation precipitated by Mr. Rich's withdrawal.

Though The Constitution has kept its

readers well advised of the political situation in Alabama, it may be well to repeat a few leading facts of what threatened to be a serious and perhaps dangerous muddle in state affairs. Reuben Kolb, the populist candidate, is in no sense an enemy to be ignored by the democracy. In the last canvass for governor, he developed a that astounded over-sanguine democrats; and it even surprised the best posted managers. There has ever been a large floating element in parts of Alabama, which "kicked" at every platform, policy and man set up by the regular organization. This party-if such it can be called-re cruited itself from time to time by taking in all republican remnants, a few who misnamed themselves "old line whigs, and that not small class who will put the hairy hand of Esau into any other man's pocket, while they whine with the voice of Jacob for any petty office.

Since the last election of Governor Jones there have been loud and repeated howls of fraud; and their "damnable iteration" has, at some times and places, been ac cepted as true. Reuben Kolb has posed as martyr, howling in and out of seaso wearisome refrain "Counted out!"

Captain Joseph F. Jahnston It was, and is, essential to beat Kolb; equally to the national democracy as to the best local interests of Alabama. To beat him, the democracy of the state well knew that they must put forward the best and strongest man, him in whom his own party confided and whose name was most a terror to its enemies. Captain Joseph F. Johnston had long been regarded as admirable gubernatorial timber. A gallant soldier, a man of affairs, a patriotic and progressive citizen and a noted financier, he had up held the banner of democracy in every contest since the redemption of the state from scalawag and carpetbag rule. As chairman of the state committee, he had done untiring, intelligent and victorious work in many successive campaigns; and when his people "delighted to honor him," and he was the strongest candidate before the state convention for the highest office in its gift, Joseph F. Johnston voluntarily put aside personal ambition, the cherished wish of his friends and the certainty of longdeserved reward, by declining the nomina tion in favor of the man whom he believed could best preserve absolute unity and harmony in the ranks that bore the demoatic banner to a fresh victory.

Captain Johnston may not be a Roman.

Better for all practical purposes, he is a a true Alabama democrat. When he calmly waved aside the governor's mantle, his friends said: "We will acquiesce this time, but there is a next time; and then we demand that the man who has honored him mand that the man who has honored him-self and us equally shall have the meed of that faithful service which, in honoring him and us, will redound to the material advantage of that state for which he has so well proved his love." Early in the canvass, the friends of Joseph F. Johnston demanded his candidacy. He acquiesced, and put himself in their hands. There was then no opposition, but it was understood that the proper ambition of other demothen no opposition, but it was understood that the proper ambition of other democrats would produce other, and perhaps complicating, advancement of claims. The first announcement was that of Joseph C. Rich, the then mayor of Mobile. As a mere youth politically, and scarcely more per-sonally, he had been elected to the city board; there he had justly earned the reputa-tion for firmness, integrity and exceptional foresight, which carried him early into the mayoralty, over all opposition by the strong-est and most popular of the "old timers." Re-elected for a second term by an over-whelming majority, and over a most popular and estimable citizen. be added. and estimable citizen, he added to his popularity and to his record as an organizer and an executive officer. A third term was clearly at his disposal, but personal reasons caused him to decline the use of his name before the city primaries. Then chaos reigned in the ranks of the local democracy.

Mr. Constanting Lawrence Lawrence Mr. Constantine Lawrence Lavretta—a young but ambitious gentleman, who had served one term in the state lower house served one term in the state lower house-was announced as the candidate of that opposition, which fearlessness, rigid adherence to what he conceived duty and strong reliance upon his own methods had naturally gathered around Mr. Rich. The latter's refusal to run left the Rich men literally "without their head." They cast about for a day or two; approached and were refused by numerous citizens, and finally centered upon a genial merchant, in no sense a poditician. Discontent divided the anti-Lavretta forces hopelessly. Mr. John Bragg, son of the noted jurist of that name, and nephew of the general, was also announced as a candidate. Faise and improper charges being made against him, Bragg withdrew, but his friends insisted on keeping him up as an independent democrat, believing that the Rich interest proud flock to them after the primaries. To condense, Mr. Lavretta is now mayor of Mobile, by a large majority; but the election has left very much of that irritable tion which ever follows party spin when there is no formidable party opposi-tion. These rankle still, liable at any mo-ment to burst out in festering sores.

Opposition to Rich.

When Mr. Rich's name was announced formally as a candidate before the state convention, a strong and powerful opposition manifested itself. He is a Cleveland democrat, first, last and all time; was a member of the Chicago convention and an unswerving Clevelandite; has constantly redisperving clevelandite; has constantly re-iterated his faith in the man and his ad-ministration, and has demanded of any con-vention from which he would receive the nomination that it should endorse, not only the democratic platform, but the Cleveland administration as well. Mr. Rich's friend ored his unswerving adherence to the h that was in him, but the very expression of that faith naturally produced bitter opposition to him by democrats of other ways of thinking. Moreover, it had been announced and emphasized that Mr. Rich would not go before the state convention without the backing of a delegation from his home county. Here came the rith Captain Johnston already had a strong and avowed following in Mobile county. Many of her best citizens had been steady and pledged adherents of his ever sine

his self-sacrifice for party autonomy, when the governorship was in his grasp years ago. Added to this strong opposition were all the elements of anti-Rich strength, con-ceived in his long administration as mayor and brought forth in vigorous life by the recent triple-headed municipal campaign It was understood that Mr. Rich, as strict party democrat, was a "Dorgan man," and some of the friends both of Lavretta and Bragg had their weapons ready to

'knife him! This was the situation when Colonel Oates—after coyly coquetting with the nomination for so long—finally offered himself for it. Here came another traingular fight within the party. Rich-from all his written utterances and all statements of his best supporters—was an ultra administraocrat; Colonel Oates was an administration democrat, and Captain John was, and is, a platform democrat, does not fear to criticise certain acts

of his party or its administration, when

plane of that platform.

Naturally, both the Oates and Rich adheren'ts were opposed to Captain Johnston: but a large portion of the Rich strength grew out of local pride, personal regard and that spirit of fair play, which declares that the laborer is worthy of his hire. That element declared that Rich should not be "knifed" in his home county, for any other reason than principle; and it is an ndisputable fact that many a man, whose first choice was Johnston, or perhaps Oates, would have voted for Rich-with the under-standing that his non-development of strength in the convention would pledge the delegation to the other man. This was the situation until today. The Rich men declared themselves confident; the Johnston men were serenely so. The latter established Jiwadquarters and formed county campaign committees. The Rich men promptly followed suit—only within a week. The Oates men "lay low, Brer Rabbit,"

ministration forces would combine in anything to beat Johnston" movement. Rich's Withdrawal Helps Johnston. And now, without the faintest shadow of warning, appears Mr. Rich's card. So far there is no sound that can be translated from the anti-Johnston democrats. That they will sit with their hands in their laps however little they may put them in their pockets—is scarcely to be expected; but the prevalent impression is that Mr. Rich's withdrawal had so strengthened Captain Johnton, locally, that he will carry Mobile county "hands down." This may or may not be absolutely sure; but his supporters will remit no tittle of care, energy and

although it was averred that all the ad

prudence to make it so.

Outside of Mr. Rich's home county, his letter of withdrawal will be received with surprise among his earnest and eloquent supporters. These will be practically at sea, some of them having gone to the length of declaring for Rich first and last, others of them having loudly announced themselves for Rich first, with varying fluctuations towards Oates, or Johnston

as the case might be.

These are the facts of the case plainly stated. Your correspondent in neither prophet, nor the son of a prophet, but it does seem that—if political history fol-lows the example of its Mother Muse—Mr. Rich's withdrawal from the governorship contest will repeat itself in something of the muddle which was left by his with-drawal for that of the mayoralty.

Politics be strange things, however, and no man may say what changes, permutations or coalitions may result between now and that fateful day which names the bearer of the democratic standard which he will carry to victory. For it is not possible to conceive that blindness, spite or petty greed will be permitted so to rule the de-liberations of the convention, as to permit the jockeying into the party weighing stand of any "dark horse" soever. At the present outlook, it would seem that the struggle is confined to the openly avowed candidates, and with—as his friends everywhere claim-the advantage already with Johnston and strongly added to by the shifting and readjusting of preferences which must indubitably follow Mr. Rich's

withdrawal. THE STRIKE AT ALABAMA MINES. A Report That Negroes Are to Be Put

in the Strikers' Places.

Birmingham, Ala., April 15.—(Special.)—It is entirely possible that this district may have considerable trouble with its miners. Yesterday the United Mine Workers of Alaama struck on the Tennessee Coal. Iron and Railway Company. About 8,000 men are involved. Today a report has been circulated that the company will tomorrow open its Blue Creek mines with negro miners. Another report has it that the strikers will not submit to this, but will resort

to force to prevent it.

Tonight Sheriff Morrow sent to Blue Creek a posse of deputies with Winchesters to preserve order in case of an outbreak. Forty thousand rounds of cartridges have een ordered sent to the local military, and they have been instructed that they may be called on at any moment. Some three thousand convicts are being worked at Pratt mines by the company and if trouble does result at Blue Creek it is entirely possible that the Pratt mines strikers may see fit to attempt to pull down the stock-ade and release the convicts. People here sincerely hope that the troubles may blow

Sulliyan's Atlanta Team Now Have Two Rivals

FOR THE LEADERSHIP IN THE RACE

For the Southern Association Pennant. The Games Open Again Today All Around.

Standing of the Clubs Played. Won. Lost. Per Ct. CLUBS.

Two games of baseball were played in the south yesterday, one in Mobile, the other in New Orleans. Nearly five thousand people saw the game in the Crescent City, and a good game it was. Nashville was pitted against Count Campau's men, and Nashville lost by a

score of 6 to 4. Mobile turned out nearly 3,000 strong to Mobile turned out hearty see the game between Jake Wells and Frank Graves, and a close and interesting game it was. Mobile won it, but it was by a scratch, and by a score Wadsworth, who was once with Atlanta, was in the box for the Memphis team, and held that Mobile slugging gang down to four hits.

The victory of the Mobile team places that club alongside the Atlantas and the Savannahs for first place. These three clubs are now even in the race and the games today will make quite a change in the standing for the pennant. New Orgames today will make quite a change in the standing for the pennant. New Orleans's victory pushes her up a peg to two in the race, and that club and Charleston are now on the even, while Memphis and Nashville stand side by side again, with Macon still at the foot of the race.

In all of the cities there will be games this afternoon. The Atlantas will meet the Charlestons again this evening and the in-

Can't Play on Sunday. Savannah, Ga., April 15.—The city authorities sat down on Sunday baseball in Savannah today. Macon had agreed to play vannah today. Macon had agreed to play the game scheduled for Monday today, leaving Monday an off-day. Announcements of the game were made in the newspapers and scattered through the city. This morning the mayor notified the chief of police not to permit the game. The management of the club was also notified. The grounds are just beyond the city limits, but as they are under the city ordinance, giving the mayor jurisdiction two miles beyond the limits, the game could not be beyond the limits, the game could not be beyond the limits, the game could not be played. A detail of police was stationed at the park gates to enforce the mayor's orders. Over two thousand people went out expecting to see the game. The action of the authorities today will probably setthe the question of Sunday baseball in Savannah. The management of the club will not fight the matter.

Mobile Beats Memphis.

Mobile, Ala., April 15.—Mobile was out-batted and outfielded today but their hits were timely, and coupled with two errors by the visitors; they won out. Wadsworth pitched great ball and should have won the game. Kling was very steady throughout Attendance, 3,000. The score:

A Hackman Drives Until He Wrecks His Vehicle.

A wild and disastrous flight was that of a negro hackman who robbed a gentleman on North avenue last night.

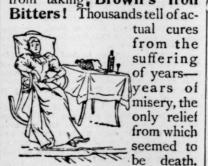

The hackman was Jim Phillips, one of the oldest on the line. He has been driving a hack for years. Last night he drove Mack Richardson home. On North avenue Mr. Richardson got out and exhibited a twenty dollar bill. The hackman snatched it and

drove off at a furious gate.

But the pursuit was vain. The Jehu dison toward the city. Close behind him was an electric car on which Patrolman Wilson was a passenger. The car was going fast, but the hackman was going faster. The policeman urged the motorman to put forth

all his energies to overtake the mad Jehu. But the pursuit was vain. The Jehu distanced all pursuers. A half dozen policemen took up the chase on the way. Like fury Phillips drove through the city and turned northward. Down Courtland street he rushed like the wind. At a corner near the opera house the hack dashed into the curbing and was smashed into pieces. The negro was thrown out several feet from his wrecked vehicle. He was arrested and carried to police headquarters. The money was found on his person. Ladies' Shoes.

NEGRO LYNCHED IN OHIO.

The People Deal with a Brute Who Assaulted an Old Lady. Cleveland, O., April 15 .- Speedy justice

was meted out to a colored rape flend at Rushsylvania, a small place near Bellefontaine, tonight. The wretch was Seymour Newland, and his victim Mrs. Jane Knowles a respectable white woman eighty-one years of age. She was terribly injured by the flend. When alone in her house, last night, Newland entered and without a word assaulted her. She was awakened by the noise he made in coming into the bedroom. She attempted to scream, and the negro brutally slapped his hands across her mouth and forced her back on her pillow. She fought desperately but her feeble strength was soon exhausted. He abused her in the most flendish manner and left her in a pitiable condition. After he had gone she dragged herself to a neighbor's house and aroused the inmates. She told the story in a few brief sentences, and then sank help essly at their feet.

Without the loss of time other folks were aroused. The news of the assault traveled like wildfire and in a short time nearly the entire populace of the village was acquainted with the story and search for Newland was begun. The mob caught Newland a few miles from town, and messengers were at once dispatched for a rope to hang him with.

Called for Militia. While waiting for the rope Sheriff Sullivan arrived on the scene, and after considerable difficulty, induced the excited citisens to turn the cowering wretch over to him. Newland was taken to the lockup, a little plain shell, and a strong guard placed outside. The excitement became so intense that the sheriff called for the militia from Bellefontaine. A company quickly arrived, and formed a hollow square around the

flimsy prison. The sight of the soldiers seemed to enrage the mob which hung around the vicinity. Loud threats of an attack were made by them. In some manner one of the mob had succeeded in placing several dynamite bombs peneath the cell in which the negro was ocked, the object being to blow him up. The arrival of the milit'a prevented the sucess of this plan to destroy the negro. The act that the bombs were there was disclosed to the sheriff and he removed them. Finally, yielding to me entreaties of the people, he ordered the militia to withdraw and local guards replaced the armed force. The crowd was just in the mood for a lynch-

About 9:30 o'clock they gathered around the frame structure. The guards offered no resistance and after being pushed aside the building was overturned with rails gathered from neighboring fences.

The Negro Lynched. Ready hands were laid on Newland who howled with terror and fought savagely. He was knocked down and a rope placed about his neck. Then, with wild yells, the mob dragged him over the ground to a small cotton wood tree some distance away. One end was thrown over a limb and the wretch was raised by the neck until he

stood erect. A jury was drawn and a mock trial commenced, but it was abruptly terminated, as the mob was too impatient to wait. The doomed negro kept up an incessant groaning and appeal for mercy, and was only stopped when, with a sudden jerk, he was sent skyward. There he was held until dead. Newland was an ex-convict and had once before been found guilty of rape.

Mrs. Knowles, Newland's victim, is in a critical condition, and is not expected to live

A New Saint.

Rome, April 15.-The Spanish preacher and theologian, Jean D'Avile Deigo, who was known to his contemporaries in the sixteenth century as the apostle from Andalusia, was beatified at St. Peter's to-day in the presence of 7,000 Spanish pilgrims and forty bishops. The ceremony was held in the front nave and was watched by crowds of Italian Catholics in the gallery. A picture of Juan D'Avile was placed on the altar at the end of the basilica and a bright light was thrown on it. The ceremony ended at noon and the pilgrims dispersed quickly and sliently. At 5:30 o'clock this afternoon the pope borne up the aisle to the altar. He escorted by twenty cardinals. He prayed for the new saint, swinging with his own hand the censor before the altar.

Mr. Avery, Receiver of Public Money. Birmingham, Ala., April 15.—(Special.)— Hon. A. M. Avery, who was last week appointed receiver of public money at Hunts ville, is a Hale county man. He is little known here, but is said to be a good democrat and a capable business man. He has made a success of farming, and has scored made a success of raming, and has scored an enviable reputation as a public servant, having represented Hale county for several terms in the state legislature. Had the appointment been made a year ago the democrats of North Alabama would have been much better satisfied, as a rank republican has drawn the pay which properly occurre to a democrat for the past tweeve months.

Stonecutters Strike.

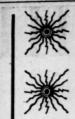

Tuscumbia, Ala., April 15 .- (Special.)-The stonecutters at work on the Colbert shoals canal at Riverton, asked for an increase of 15 cents per hour in their wages last Tuesday, and being refused laid down their hammers and drills. They were receiving 30 cents per hour, working eight hours per day and were offered 37½, an increase of 60 cents per day, but they refused to accept cents per day, but they refused to accept any compromise and are holding out for the increase agreed upon among themselves. Messrs. Chapman, Reynolds & Co., the contractors, are practical business men, and will do whatever they feel is right in the matter. It is hoped that the differences will soon be adjusted and the work proceed smoothly as it has been doing up to the present time.

Alabama Pythians. Birmingham, Ala., April 15.—(Special.)— Next Tuesday the grand lodge of the Knights of Pythias of Alabama will conwene in annual session in this city. Some three hundred Pythians from different sec-tions of the state will be here. An attrac-tive two-days' programme has been arrang-ed, and the visiting knights will be shown every hospitality.

Judge Jere Wilson said today that he was
not surprised that his client had broken down after the trial. "It would have been impossible for her to have sustained herself in the courtroom during the arguments, especially during the attacks made upon her the defendant's attorneys." he said one can imagine the nervous strain to which she has been subjected."

THE GREAT NORTHERN STRIKE.

Railway Brotherhood Men Say They Will Not Sustain the Strikers. St. Paul, Minn., April 15.-The strike on the Great Northern railroad is gradually working east, having taken in Grand Forks, N. D., last night, and if not settled soon, will probably reach this end of the line in about two or three days. It is developing a peculiar state of affairs. The strike was ordered by the American Rallroad Union and is being more actively antagonized by the rallroad employes' brotherhoods than by the railroad company itself. The following has been received here addressed to the president of the Great Northern railroad: president of the Great Northern railroad:
"If firemen in your employ, who are
members of the brotherhood have quit work memoers of the brotherhood have quit work in the present strike, they have violated the laws of the organization and will be ex-pelled. They will have no support from the organization or be sustained by the feder-

ated committee. "We propose to stand by all agreements that have been signed by authorized committees. You are at liberty to act accordingly.

F. P. SARGENT." ingly.

The following is a copy of a message sent by E. E. Clark, grand chief of the railroad conductors, to the local secretary at Spokane Falls with directions to make such use of it as he chooses:

"The strike on the Great Northern will receive no recognition or support from me

"The strike on the Great Northern will receive no recognition or support from me or from the federated organizations. Our members' duty is to comply strictly with our laws, and to perform their proper and regular duties. If any participate in a strike they must abide by the consequences, which are well known."

As far as can be learned at this hour, the road is nearly tied up over about 1,500 miles of its extent, the number of men idle being much greater than the number of actual strikers.

#### KILLED IN THE WRECK

I Bad Accident on the Southwestern Railroad Saturday Night.

FIREMAN HENRY ADAMS WAS KILLED

And Postal Clerk Williamson Severely Injured-A Passenger Train Runs
Into an Open Switch.

Macon, Ga., April 15.-(Special.)-Fire-

man Henry Adam, of Macon, lost his life and Postal Clerk T. J. Williamson, of Atlanta, was seriously injured by reason of a wreck last night on the Southwestern railroad. The particulars are as follows: The passenger train which left Macon last night at 7:50 o'clock for Albany, ran into an open switch at 9:30 o'clock p. m:, at Maxwell's, a few miles this side of Montezuma. As no freight trains had recently been along there the conclusion is that the switch was left open by some miscreant for the purpose of wrecking the train. Engineer fom Elf was in charge of the engine, and when he saw the train leave the main track and turn into the watermelon siding, he bravely remained at his post and reversed his lever, but to no avail. The engine dashed into two freight cars that were standing on the siding. The engine was overturned as well as two or three cars. Engineer Elf crawled from under the debris unhurt. His escape from death

was marvelous. Fireman Adams was not so furtunate. When the crash came he was hurled some distance and knocked unconscious. His knee was fractured, one arm broken, and other injuries sustained. He was not instantly killed, however. He was brought to Macon at half-past 9 o'clock this morn-ing in charge of Dr. Richardson, of Montezuma, the railway surgeon of that section, and delivered into the care of Dr. H. J. Williams, the road's surgeon at Macon. Adams was carried to his home on Third street. He remained unconscious until 2:45 o'clock this afternoon, when he died. He was married and about twenty-five

Postal Clerk Williamson was standing at the mail rack in his car putting up mail, when the accident occurred. He was thrown down violently, and his hip dis located and back injured. He was also brought to Macon this morning in charge of Dr. Richardson, and delivered into the care of Dr. Williams. This afternoon at 4:25 o'clock he was carried to his former

ome at Barnesville.

None of the passengers and no one else on the train was hurt. The damage to the engine and cars was not very great. The track is clear and trains are running regularly today.

A Great Theme.

Mr. Claude Falls Wright, of London,
England, secretary of the late Madam
Blavatsky, and one of the speakers at the
parliament of religions in Chicago, lectured this afternoon at the Academy of Music or "The Theosophical Society—Its Aims, Mis-sion, Why Founded" and the like. He has delivered several lectures in Macon and the one this afternoon, like the others, was very interesting and largely attended. Mr. Wright told how the Theosophical Society was formed and gave a dissertation on the Mahatmas, the oriental sages of occult power who are guiding the affairs of

on the Mahatmas, the oriental sages of occult power who are guiding the affairs of that society and advancing and teaching its members. It appears that there is far more interest in the subject of theosophy in the city than its opponents are willing to believe. Mr. Wright has been besteged with inquiries concerning theosophy, now spreading so rapidly in all the large cities of America and in Europe.

The lecture on Friday night on "Dreams" was perhaps the most interesting of the whole series. In it the speaker showed that there was a profound philosophy underlying the subjective impressions of most persons and said that in the oriental philosophy the inner consciousness had been reduced to a perfect science. Phrenologists were right, he said, in the extent of perceiving differences between the development of the brains of men and animals. The cerebrum is the seat of the soul or the organ through which it obtains communication with the physical body; the cerebellum is the seat of the animal man. In the animals the cerebrum is little or not at all developed. When man sleeps he passes to other states of existence. The memory of what he does he rarely brings back with him because certain parts of the cerebrum are not sufficiently developed normally to permit of his doing so. The ordinary dreams are chiefly rubbish, being the effect of a passing excitation of the cerebrum.

Purchases of Property Made by Gentlemen from the West.

Cuthbert, Ga., April 15.—(Special.)—Cuthbert is attracting the attention of people from every section of its country. The general distribution of the pamphlet has been a mighty and powerful factor in this. A gentleman from Minnesota, quiet, unostentatious, but every inch business, has been here for a few days prospecting. He became interested with our fown and advantages at once and yesterday he closed a trade for a valuable suburban tract of land. He says that there will be no trouble in getting a number of his people to purchase here. in getting a number of his people to pur-

chase here.

This same expression fell from the lips of a gentleman from Ohlo, who was here last week. A gentleman who was here a few weeks since from Syracuse, N. Y., is expected back next week and will no make a purchase. One from Minneapolis, Minn., is expected to eturn with a number of his friends, while an excursion from the west will be gotten up during the summer with any number of excursionists. What has been done on this line, what is now behas been done on this line, what is now being done and what the future promises is

very encouraging to our people.

An ice factory, established two or three weeks since and work going on now, is a source of encouragement to our town and enterprising people. They are not content with this. The mayor and council at their meeting yesterday spoke enthusiastically of electric lights and waterworks. They unanimously decided to have them. In accordance with this Mayor R. L. Moye will order an election for this purpose on May 18th. These enterprises went through once before, but on account of depressing times were not put forward. Now the importance of the town demands them. There is very little or no doubt of both going through all

A POPULIST CONVENTION

Held at Dawson, Ga., to Nominate Candidate for Congress. Dawson, Ga., April 15.—(Special.)—The recent populists' convention held here was attended by delegates from eight of the counties within this (the second) congressional district. It was determined to hold a convention at Albany on the 29th hold a convention at Albany on the 29th day of August to nominate a third party candidate for congress, each county being left free to select its own delegates at such time and in such manner as may be

determined by its own populists.

N. T. Crozier, of Randolph county, was chosen chairman of the district committee and R. H. Fletcher, of Terrell county, as

Terrell county has called a mass meeting to assemble at Dawson on the 17th day of June for the purpose of reorganizing the executive committee and to determine the time and manner of selecting delegates to the senatorial and congressional conven

A most delightful and unique entertain ment was the "Circulating Library" party recently given at the pleasant home of Captain and Mrs. B. C. Adams. It was the first affair of the kind ever given in our little city and the clever host and charming hostess deserve great praise for the great success which crowned their splendid entertainment. Judge J: H. Guerry won the capital prize and Dr. Thurmond the booby prize for guessing.

Lighting Cars by Electricity. There is much interest just at present in the efforts being made to secure a desira-ble device for lighting railway cars by electricity.

The report which has just beep filed by a London railroad company shows it is possible for the cars of the average railway train to be handsomely lighted with the

and South Chast railway for 'be whole year was \$243.60.

The Cleago, Milwaukee and St. Paul railway has tested a new device for the electric lighting of railway cars, the invention of William Biddle, of Brooklyn. The machine is placed upon every car of the train and is driven from one of the axles and geared directly from the axle to the dynamo at a ratio of three to one. The dynamo is one-horse power and wound to give a current of eight volts.

One of the features of the it vention is an electrical changine with which automatically changes in the direction the car is reversed, so that in the backward movement of the train the light remain steady. The machine is automatic throughout and the electricity is not generated when the car is moving at a late less than twenty miles an hour. A system of storage batteries provides for a steady continuation of the light during stops of the train and will run the lamps for five hours after the car has stopped.

The Queen's Look.

The Queen's Look.

Says a London cable, in connection with an alleged exhibition of temper on the part an alleged exhibition of temper on the part of Queen Victoria, because of certain annoying arrangements at the villa in which she is residing at Florence: "The queen is what Lord Byron once described as a 'dumpy' woman—that is, given to spells of the company of irritability and hasty temper. William Terriss, the actor, said he once saw her when her look was at least thirty feet high. The riss, the actor, said he once saw her when her look was at least thirty feet high. The occasion in question occurred after a 'command' performance at Windsor of 'Becket.' At the conclusion of the play her majesty had the company before her, and, as usual, addressed a few pleasant and kind words to Mr. Irving and Miss Terry, and then, with a comprehensive sweep, dismissed the company to their luxuriously prepared supper in an anteroom. The hiustrious lady, however, forgot to speak individually to Mr. Terriss, and as all the company were backing out, the neglected actor ventured a remark addressed to her majesty to the effect that he was pleased to think their efforts had won her approbation. This was one of her majesty's thirty-feet periods. She turned her head perhaps the thirty-second part of an inch and, folding her arms, gave Mr. Terriss one look, which was sufficient to make the actor pinch his person to assure himself that he had not turned to stone and it has haunted him ever since. Even now he starts up in the middle of the night, and in shrieking accents exclaims: "That look! Oh! that look!" Even in these nineteenth century days, with democracy approaching with giant strides, it is still an adamant law that no subject shall ever address the sovereign without having first been spoken to, and although such an oftense is not now punishable on the block at Tower Hill, it is still considered a directime. The roving royalties in southern Europe will possibly remember hereafter that only silence must be addressed to Britain's rulef"

FOR GOVERNOR.

It Is Probable That Hon. H. H. Carlton, of Athens, Will Run.

REPORT FROM MADISON TO THAT EFFECT

It Is Said That His Friends Are at Work and That He May Announce in the Course of a Few Days.

Unless signs are in error it seems that Hon. Henry H. Carlton, of Athens, may be counted upon as a decided factor in the campaign for the democratic gubernatorial nomination.

Madison county has always been a Carl-

con stronghold and in his congressional campaigns it invariably stood for Carlton against the world. He has many warm friends in the county, and from among them comes the report that he may soon enter the lists for the democratic nomination for governor. Several letters have been received here from Clarke county indicating that the movement is on foot and that it is possibly assuming the shape of actual organization. It is also supposed that similar efforts are being made in other counties of the eighth district, which Mr. Carlton represented for two terms in congress. It is certain that the matter has been talked of in Oglethorpe, for a well-known gentleman of that county is now in communication with parties here and is evidently engaged in taking "sound-

As yet the matter has assumed no more definite shape than that of rumor, but judging from indications the announcement of Mr. Cariton's candidacy at any time need not be surprising.

Savannah Presbytery. Waycross, Ga., April 15—(Special)—The routine work of the Savannah presbytery was finished yesterday. The session has been an interesting one. Friday morning Rev. E. W. Way and Rev. E. Taylor made advented to the search of the dresses in favor of the evangelization of the colored people in the bounds of the presbytery. At night addresses were made by prominent ministers in the interest of missionary work in foreign fields. Rev. L. C. Vass, D.D., pastor of the First Presbyterian church preschools. byterian church, preached an interessermon, from Luke xi, 26: "And the state of that man is worse than the first."
Saturday morning Rev. Dr. L. C. Vass
made a comprehensive report on the condition of home missions in the Savannah presbytery. Important changes and appropriations were made by the presbytery for the benefit of home missions. Rev. C. C. Carson was elected commissioner to the next general assembly, with Rev. L. C. Vass, D.D., as alternate. The next meeting of the Savannah presbytery will be held at Flemington.

Granted a New Trial. Watkinsville, Ga., April 14.—(Special.)—
It will be remembered that Jesse J. Whitehead, of Oconee county, was in 1890 indicted
under the charge of shooting at Mr. E.
G. Ware from ambush. Judge N. L. Hutchins yesterday granted a second new trial in this notorious case, this time on the grounds of newly discovered evidence. General expression approves the judge's course in granting the new trial. Jesse Whitehead, his good wife and Whitehead's faithful attorney, Judge B. E. Thrasher, are happy

over the result. Waycross, Ga., April 15—(Special.)—Ware superior court will convene here tomorrow morning. The courthouse has been lighted by electricity and lightning rods have been erected. The court will last two weeks and night sessions will be held. No important criminal cases will be tried, although the civil docket will furnish some interesting trials. The Brunswick bar will be ably represented during the session. It is rumored that Hon. W. Y. Atkinson will speak here one day next week, and it is expected that Hon. Fleming G. duBignon will also be present and address the people. Mr. Atkinson will probably speak at Waresboro while in this county.

The thousands of readers of The Consti-The thousands of readers of The Constitution will remember the searching investigations made by this paper in regard to Dr. J. diseases of the eye and nervous system, because he does not treat all. When his experience tells him a case is incurable he says so without fee or reward.

The public at large will think that Dr. J. Harvey Moore is making the mistake of his life in closing his offices for the entire summer, just when every one has become convinced of his remarkable management of his remarkable and the state knows that his future success depends in always being in the best physical and mental condition, and has found, from past experience, that the best way to accomplish this is to take a few months' vacation each year, visiting at times the world's greatest specialists, not depending on originating everything new, but taking from them all he finds of service in his practice, and discarding many of their methods, even if practiced by the most emment, when he finds they are not practicable, or that he has methods of his own that are better. That he is conscientious and values the reputation he has established in the south, none will pretend to deny, when it is known that he might leave an assistant in charge of his office, and say nothing of his absence, as most other specialists do, and thereby make hundreds of dollars. But is this honest, having patients come from long distances, in many instances, because they know Dr. Moore has possessed of extraordinary skill, only to be treated by an assistant, and in many linstances, because they know Dr. Moore has established his reputation by performing all operations himself, dealing honestly with his patients and personally prescribing for them.

Another method of the doctor which has the ring of honesty is, that while his offices will remeated by an assistant, and in many linstances not obtaining the result expected?

The Platform and the Administration

Colonel A. H. Belo, of The Galveston News, has been making some remarks to the correspondents at Washington about the situation in Texas. The colonel seems to think it is a very fortunate thing that there is division among the white voters of Texas. The democratic majority has been too large heretofore; things have been too unanimous for comfort. At least this is what the colonel thinks, for he says that the division will prove to be beneficial.

But the most interesting part of Colonel Belo's remarks in his statement that the democrats of Texas, in order to win, will have to "stand squarely on the democratic platform and squarely by the administration." .The candidates, too, the colonel says, will have to back up the platform and the administration.

We judge from this that the democrats of Texas have the advantage of their brethren in the rest of the country in limberness of leg and disposition. Otherwise it is impossible to imagine how they are to perform the feat which the colonel lays out for them. We very much fear that in attempting to perform this monstrous split the democratic crotch will hit the ceiling in Texas with a thud dull enough to stifle en-

The democratic platform declares that both gold and silver shall be the standard money of the country. The administration, by the aid of John Sherman and the republicans, has forced through congress legislation that establishes the single gold standard, and is carrying out a treasury policy that makes silver reemable in gold.

The platform declares that the mints shall be open to the' coinage of both metals without discrimination against either, or charge for mintage. The adninistration is opposed to this.

The platform declares that the ratio between the two metals shall be adjust ed by international agreement, or by such safeguards of legislation as will insure the equal value of the dollar unit of both metals in the markets and in the payment of debts. But the admin-Istration has notified Europe that it wants no international conference, and it has informed Mexico that it will take rt in a convention of the Central and South American republics called for the purpose of extending the use of silver as money.

The democratic party is in favor of ining the seigniorage now in the treasury and adding it to the available asets of the treasury. But the administration has set the seal of its condemnation on that measure.

The democratic party is unalterably oposed to issuing interest-bearing bonds in response to the demands of the organized money power. But the administration has issued \$50,000,000 of 5 per cent bonds on its own responsibility, and Wall street organs decare that it is preparing to issue \$50,000,000 more.

The truth is, Colonel Belo is blind if he does not see that the financial views of the administration are republican ws. Every step taken by it thus far has either been suggested by John Sherman and his following, or is endorsed by them. Does the democratic platform approve republican financial legislation and demand its re-enactment? Does Colonel Belo, or any other colonel, think that democratic voters can endorse republican doctrine and still stand on the mocratic platform? Does he thin they can stand on the platform and approve the administration's endorsement of republican doctrine?

The doctrine set forth in the platform and the doctrine endorsed by the admin-Istration are irreconcilable. They won't eat at the same table, they won't sleep in the same bed. They are mutually repellant. How then does Colonel Belo or any other colonel expect men who are nocrats from principle to endorse an administration that approves republican financial doctrine? Does the colonel expect the great body of democratic voters, or any respectable portion of them, to desert their principles, repudiate their platform and stultify themselves simply ecause the administration has accomplished that feat? The suggestion is osterous—absurd—ridiculous. Colonel Belo is not serious. He is playing on his bazoo to amuse the boys in Washington. He is giggling behind his fan. He is talking through his hat. He is blowing wind up his sleeve. He is doing anything and everything, in short, except

giving out the facts as he knows them. There is but one way for the admintration to secure the endorsement of self-respecting democratic voters, and that is to throw the republican financial policy to the winds and adopt the policy aed in the platform. The people did not select the administration to destroy the platform or to make a new They selected it to put in operathe principles and policies laid down moeratic constitution and lay ulated at Chicago. If the adminisration were blotted out of existence row, these principles and policies would be just as vital-just as urgent | In May, 1844, a convention of office hold-

as they are today. Nothing short of the unnihilation of the people would destroy the vitality of the platform pledges and demands.

The platform was framed and adopted before the candidates were elected, and it was and is in the nature of a solemn compact with the voters of the country. The party, by the very act of putting forth the platform, said: "Here are our principles and our policies. Here is our solemn declaration. Here are the reforms we propopse to stand or fall by. Here is the political programme our candidates will be pledged to carry out. If you do not like it, go and support other candidates; but if the programme meets your approbation, then we cordially invite you to join with us in carrying it out and in redeeming the people from

the evils of republican legislation." The platform is the compact, and the adminstration that violates it is entitled to no more consideration than the most obscure conspirator against the people's interests. Let the administration discard John Sherman's financial policy and take the democratic platform for its guide. Let it carry out the compact the party made with the people. Then we shall hear no more of anti-administration this and anti-administration that. Then the party will be solid and united in support of the administration and the plat form, and invincible in the coming elec-

tions. This is probably the remedy that Colonel Belo would like to see applied. It is in fact the only remedy that will bring the administration into line with the democratic voters of the country.

The platform is the only guide, the only test, the only gauge of true de

The South's Foreign Trade. While we are talking about direct trade between our southern ports and those of foreign countries we should take notice of the steady progress of the movement. The western and southern products

which formerly found a foreign outlet through the north Atlantic ports now seek the south Atlantic and gulf ports. Shipments to New York and New England are no longer made by the all-rail haul. It has been found that it is cheaper to send them via the southern ports.

The Baltimore Manufacturers' Record quotes as follows from a government report giving the value of foreign exports for the eight months ending February, 1894, as compared with the corresponding period 1893:

The increase for the whole country is \$52,000,000, and for the south it is \$27, 300,000, more than one-half of the total gain. Baltimore gains about \$6,000,000 Charleston \$3.500,000. New Orleans \$8,700,000, Newport News \$4,200,000, Norfolk \$2,400,000, Richmond \$1,300,000, and Savannah \$4,900,000.

Direct trade for the south is now an accomplished fact, and the European freight and passenger steamship lines recently established between Port Royal and Europe indicate the rapid increase of our foreign trade. When Atlanta's great exposition brings us in touch with the countries south of us our southern seaports will be among the most important commercial centers on the continent. Direct trade will aid our manu facturing interests instead of injuring them by letting in foreign competition. Under our coming low tariff system our manufacturers will reach out for new markets, and the south will be encouraged to manufacture most of her raw material and ship the surplus

abroad. Undoubtedly, we are entering the most important commercial and industrial

era in our history.

Will It Be a Parallel Case? The Nashville American calls attention to the fact that when John Tyler became president on the death of General Harrison he retained the latter's cabinet and

published an inaugural address which

vas satisfactory to the whigs. President Tyler sent a message to special session of congress in May, 1841, favoring a national bank and suggesting that congress should request the secretary of the treasury to outline a plan. Both houses adopted resolutions in accordance with this recommendation, and Mr. Ewing sent in a bill for the incorporation of the "Fiscal Bank of the United States," framed essentially as the presi dent had suggested. The bill was passed with a new clause concerning branch banks, and was sent to the president who vetoed it, declaring that it was

unconstitutional. The whigs were disappointed and angry, but they tried to conciliate Mr. Tyler and persuade him to endorse their favorite measure. A bill was prepared on a line supposed to be acceptable to the president, and was privately submitted to and approved by him and his cabinet, and was finally passed without alteration by congress. To the astonishment of all, Mr. Tyler vetoed it. It seems that he had been led to be lieve that the act was framed to entran him and make him appear inconsistent. The cabinet resigned, with the exception of Mr. Webster, and the members published statements severely reflecting upon their chief. Then the president appointed a cabinet composed of what

would now be termed mugwumps. Later, he reorganized his cabinet, appointing three members of the oppopsite party-two of whom the senate rejected. The American goes on to say that towards the close of Mr. Tyler's administration it became evident that he had

lost the confidence of his own party

without securing that of the democrats

ers tendered him a nomination for the presidency. He accepted promptly, but finding that he had no popular support

he withdrew from the race. Our Nashville contemporary |recalls these facts and asks: "Is history re-

peating itself?"

A Sensible Negro.

Professor Booker Washington, the president and founder of the Tuskegee Normal and Industrial institute, is per haps the brightest negro in America. His ideas concerning industrial education will be found as serviceable to the whites as they are to the blacks.

The professor thinks that mind and matter should be coupled together in the schoolroom. Education should consist of something more than cramming the mind with mathematics, languages, literature and the different sciences. The world wants to know what a man can do; not what he knows. The class of people who know a great deal is growing too rapidly. If a learned man is useless he is no better than an ignorant man. People must get rid of the idea that

manual labor is degrading. A highly educated man is better fitted for industrial training than an ignorant person. When education fails to teach habits of industry and thrift it is worthless. Here is the way Professor Washington puts it The colored race is sick. We have made some mistakes. We should try to learn how to get well, rather than to find how we became ill. The black man has a bet ter chance to succeed in the south. He can succeed better in spite of southern prejudice than he can in spite of northern competi-tion. We should hold their advantages up before the people and not their disadvan-tages. Our condition will change. The friction between the races will pass away just as soon as the black man gets something the white man wants. At present we don't own anything anybody else wants Nobody pays any attention to a per unless he has got something. Let us on with this industrial education. It the finer solution of these great problems of our race.

He has made a big success of his in stitute, and 90 per cent of the graduates are self-supporting in the various trades which they have mastered in this in-

lustrial school. The Tuskegee educator is a worthy leader of his race. His educational and economical ideas are exactly in line

with those of Benjamin Franklin. Where a Mint Is Needed.

The New Orleans Picayune regrets that the mints at New Orleans, Denver and Carson are to be closed, but it ad mits that they are no longer needed as they are not in the gold region and there will be no more silver coinage.

But if these mints are to be closed why not establish a mint at Atlanta, which is within easy reach of the gold region of north Georgia and the Carolinas? Before the war \$36,000,000 in gold was taken from the surface ore and alluvial deposits around Dahlonega, and with deep mining and first-class mills the experts say that the output of the district will beat that of California. The gold veins run through Virginia and the Carolinas and unite at points in Rabun and Haralson counties.

If we are to coin nothing but gold in future the same reasons that caused the government to open a mint at Dahlonega many years ago are operative now, and a mint should be established at a central southern point like Atlanta to coin the gold that would come in from the neighboring mining districts.

There is great activity in gold mining at present, and we may expect to see the southern gold fields thoroughly worked in the near future. If a mint in Georgia was necessary before the war it is far more necessary now that the mint at New Orleans is about to be closed.

We hope Mr. Tom Reed won't get gity.

The democratic quorum seems to have crawled into a hole and pulled the party after it.

Wouldn't it be well for the house to adjourn and hunt up ...e patriotic absentees?

The absence of a quorum seems to be in the nature of a republican victory. There are a few financial tories in the

south, but the vast majority count their money in the east.

It is a great pity the patronage heelers can't get a financial tory to run for some elective office in Georgia.

EDITORIAL COMMENT.

Mr. E. L. Cortbell, the distinguished civil engineer, reports that the Louisiana coast and lowlands are sinking into the sea at the rate of a foot in forty years. The New Orleans Picayune says: "Of course every student of geology knows that there have been in past ages extensive changes of fevel in all parts of the world, regions that were once at the bottom of the sea being now high and dry, while other regions which once stood above the waters are now buried far down in their depths. These facts are not only recorded in history, but they are further established by the evi-dences of the rocks and many other facts revealed by the conditions of islands and continents. But not only are there in-disputable evidences of ancient sinkings and upheavals of the land, but it is certain that such shiftings of level are actually now in progress. Many instances have been given of the gradual subsidence or uprising of coasts, and some are on record of the sudden and violent sinking or upheaval. There is nothing frightful in the fact that Louisiana is slowly sinking into the sea; but if it were announced that an island is to be heaved up in the gulf of Mexico, that would be alarming, in-deed, because it would displace an amount of water that would come in a tidal wave upon our low coast, sweeping everything into destruction. Fortunately, there are no signs of such a calamity, and, as for the sinking of New Orleans, some 400 years will elapse first, and so distant an event need not excite anxiety."

A newspaper reporters' strike is reported from Buda-Pesth. They are not striking against the papers. Such a strike was never heard of. It is against the parliament, and they think that they can make it very interesting for the legislators. Their grievance is that the president of the lower house blocked the corridors between the newspaper gallery and the lobbies with a view to punishing a few indiscreet reporters and thus condemned all the newspaper men to reach their desks by way of under ground corridors and dark staircases. The Society of Journalists resolved that in view of this petty persecution the reporters should hereafter merely record the decisions of the house, omitting all the debates and names of deputies. A similar strike took place years ago in Vienna, and it was immediately successful. The reporters here are backed by all the newspaper editors

A St. Louis drummer says that the typewriter has cost him a good many customers in the backwoods districts of Arkansas,

and proprietors.

Texas and the Indian Territory. He tells of a visit that he made in the country some thirty miles from Newport, Ark., to a customer, who had always received him gladly, and entertained him loyally. This time the merchant would hardly speak to and his wife and daughters turned their backs and walked out of the store when he entered. The situation was soon explained. Said the merchant, tossing a type-written letter toward him: "You think up thar in St. Louis thet me an' my darters can't read 'ritin,' do you? an' so you've gone to havin' my letters printed!" In vain the drummer explained the machine on which the work was done and the universality of its use by business houses the man would not believe that there was any such machine, and persisted in considering the letter as a printed circular and a personal affront,

ABOUT THE GOVERNORSHIP. The Cleveland Progress comes over into the Evans column with the following an-

"Heretofore we have been inclined toward Mr. Atkinson, thinking him the stronger man of the two, in this respect. After many interviews with prominent men, democrats and populists, from different parts of the country, we now believe General Evans's broom will sweep cleaner than that of Atkinson. We are for the success of the democratic party first and last, in the county, as well 's the stare at large, and we propose to endorse through our columns the candidate, who in our opinion and in the opinion of our closest friends, est insure democratic success in Loth

Of General Evans's recent visit to houston The Fort Valley Leader says:
"Many that were on the fence tumbled of on the Evans side, while others seeing their mistake broke from the rarks of At-kinson and leaped the bars into the front ranks of the Evans column. The people of Houston have heard and seen both candidates, compared their ability, capacity worth and statesmanship and the verdict is now and will continue to be for Clement Evans for governor by a large ma-

The Dawson News has the following: "Mr. Atkinson is evidently making more as strong as he and his supporters are so energetically trying to make the public be lieve. He spoke up at Richland the other night, and next day it was announced in flaring headlines in one of his organs that he made a clean sweep and no Evans mer ould afterwards be found in that locality To show how groundless is the claim. The News is permitted to make an extract from a letter written by Mr. G. E. Bell, one of the most influential and conservative citi zens of Stewart county, to a friend in Dawson. Mr. Bell writes from Richland as

"The county is for Evans. Atkinson made a speech here, in which he minified Evans and tried to magnify himself. We have an Evans club at Richland of 100 or more names, and you may put it down certain that the county will go largely for Evans. We are quiet, but fixed."

In an editorial on the governorship The Cartersville Courant-American says: There are hundreds of men a corgia today who would fill the all over or's chair with equal ability with Colone Atkinson. He is, moreover, a young man, and can afford to wait. The people are alert and discerning and if his merits entitle him to higher honors they will not be slow to bestow them upon him. At present it seems that General Evans is the man for the emergency, is the choice of the de-mocracy, will be the democratic nominee and will to the rovernor. There is not a single charge against his character, public or private. He is, veritably, a man of the people, and one who would make a model governor—one free from entangling alli-ances—o.ie without guile."

The Griffin Call says editorially: "On yesterday General Cleme

Evans, who is recognized as the next governor of Georgia, passed through the city yesterday en route for Atlanta from Harris county and portions of southwest Georgia, where he has been given an ovation by his many friends and ardent supporters. He is, as he has always been, popular with the people and the flings of a few of the disgruntled papers of the state only inter sifies his support and the reople's admira-

The Elberton Star has the following: Mr. Atkinson may feel that he cannot afford to wait. But the people, the builders of our state government, see no reason for any great hurry. They have seen the grand old soldier, Christian and patriot. General C. A. Evans, tried in days darker than these; they have known him in tory and defeat, and they intend to him and themselves by electing him gover-

nor of Georgia." The West Georgia News says: "'Hark from the tomb a doleful sound!'
The Atkinson men seem to be viewing the ground where they must shortly lie, but men as brave and confident as they are ought to go to the grave with martial step.

We call for 'Dixie.' Give us 'Dixie,' boys. Give us 'Dixie!'" The Griffin Call has this news item: "A gentleman from Pike county was heard to remark yesterday that he would give \$10 towards paying Atkinson's expenses to have him speak at Concord. 'For,' said he, 'that would give the county solid to

General Evans.' The Southern Argus says: "The Atkinson men spend idle breath when they say that General Evans is not in it' in Floyd county. They don't know what they are noising about.

Says The Southern Argus: "The cheering news still reaches us from all over the state that General Evans in ahead in the gubernatorial race.

The Eatonton Messenger says: "It will be an easy transition from General Evans to Governor Evans. Unfor-tunately for Mr. Atkinson, the people are running Georgia politics this year.'

The Macon Evening News puts the mat ter this way:
"Some of the Akinson boomleteers are shedding great gobs of printer's lak to prove that General Evans is the Atlanta candi-date. Why certainly he is, by a large ma-jority. He is also the Macon candidate, the Savannah and Augusta candidate, and, in fact, the Georgia candidate."

The Madisonian has this paragraph 'We have no fight to make against Mr Atkinson or his supporters. We simply pre-fer General Evans for governor—that's all, and we will not fall out with any Atkinson men because they do not agree with us

Replying to a northern critic of General Evans The Savannah Press says: "General Evans is as far from being malignant, relentless, or unforgiving as any man in the world. He is the soul of gentiteness and peace. He is amiable and con-ciliatory, but, as some of his opponents have found, when aroused on the stump he can fight like a lion."

The Savannah Press says:
"General Evans spoke recently in Hous ton county. The general is a team. He gets over the state in good style."

GEORGIA POLITICAL NOTES.

The latest congressional chat is that there will be four candidates for the seventh's plum. Bartow is said to have a well-groomed racer, and Gordon is not without excellent congressional timber. The Cedartown Standard says:

"Wouldn't it be lively, though, with four men in the field for the democratic nomi-nation? Hon. R. W. Everett is being strongly urged to enter the race for the democratic nomination, but he is still de-bating in his own mind whether or not he will run. It is said by some that Scab will run as an independent democrat on his own platform, with the endorsement of the people's party. If he goes on the stump and turns loose about \$10,000 in the race, who says that he would not worry the

"The people's party is not dead in this neck of the woods. It will be remembered that under the rotation system, it is Paulding county's time to have the state senator from the thirty-eighth district. That party is up and about, and it is said that Hon. J. W. McGarrity will be their senatorial candidate. He is by all odds their stronges man in Paulding county, and will make the very best race that can be made by any candidate of that party.

"But democrats will be found on guard all along the line, and that sanguine populist, who thinks his party will have a walk-over, will ask himself 'where was he at' after the cyclone passes next October. Dr. Foster and Colonel William E. Spinks, of Dallas, are good democrats prominently spoken of as probable candidates for the party racetrack, but whoever is trotted out by the democratic party of Paulding receive the loval and enthusiastic support

The Carnesville Tribune makes this queen "Politics in this county are getting to be very dangerous. They are invading the churches and every vocation of even the private walks of life. There exists now in our county a state of political feelings b actions that, if not checked, are going to work a very great injury to our property and will shield guilty men from punishment and convict others who are in nocent.

The Madisonian states that Judge Mc-Whorter is squarely in the race fo

"He says he is in the race for congress against Judge Lawson or any other candidate who may enter the field. This means an exciting race for congress in this district next fall. Judge McWnorter will make a formidable opponent for Judge Lawson and will run well."

"The race for representative of Pulaski county this year," says The Hawkinsville Dispatch, "promises to be a most interest-ing one, and will be bosely contested. Three of the best and ablest men in the county-Messrs. J. P. Brown, M. T. Hodge and Walker Jordan, Jr.—are the gentlemen so far announced and the great popularity of each aspirant makes it a hard matter to predict the result."

The Dawson News has this with reference

to Judge Griggs;
"As to Judge Griggs's candidacy for congress, The News is not prepared to speak. While he has been very flatteringly mentioned, in all parts of the district, in connection with congressional honors, he has made no announcement that he is or would be a candidate.'

The Calhoun County Courier has this gossip of Judge Griggs:
"The Courier man had a short chat with Judge Jim Griggs on the train last Friday morning, in regard to his probable can-didacy for the democratic nomination for congress from the second district, and was pleased to learn that this distinguished young jurist had just about made up his mind to respond to the calls of his friends all over the district and announce himself as a candidate for the congressional seat now occupied by Hon. Ben E. Russell.'

The congressional campaign in the ninth district opens early. Chairman Brand has issued his call for a meeting of the democratic executive committee at Gainesville on May 2d.

Gilmer county now has two republicans running for the senate—T. W. Craigo and J. W. Duckett. The democratic candidate has not announced yet.

Captain J. H. Martin, of Hawkinsville was recommended by the grand jury last week as a man suitable for an asso justice's seat on the supreme court bench if the amendment proposed be adopted allowing two more members.

SOME GEORGIA STORIES.

A strange story of a clock comes from Lawrenceville, Gwinnett county. Mr. John Martin has a clock which has been in the family for seventy years, and has not run for the past sixteen years—has not ticked once. Not all the works are in it, and it has been tried often and found to be utterly impossible to make it tick even once. There is nothing left of the striking apparatus but the gong and hammer. Various persons have often tried to make it strike, always without effect.

Five years ago, when Mr. Martin's mother died, was the first time the awful and strange conduct of this clock was noticed. A few hours before her death, it struck seven times, with an intermission of fifty or fifty-five minutes between each stroke until the last was to follow, when an intermission of only fifteen minutes occurred About two years after the death of Mr. Martin's mother, his father, Mr. Elisha Martin, also died, and again the clock struck the same number of times, exactly as before with the same intermission be

tween the two last strokes. A young man by the name of Joe Givens-not a member of the Martin family, but who had been living with and working with them for several years, was taken sick a short time ago, and grew worse until the night of the 3d instant, when, at the hour of twelve, the watchers were frightened and awed by the clock again striking. Once-plain and distinctly it sounded—the watchers saw the hammer was about fifty minutes coming to standstill, and when it had finally r a striking poise it trembled an instant and struck again, and so on for six times, and then there was an intermission of fifteen minutes when it again sounded. Early that morning the soul of Joe Givens passed

There are plenty of people in the house who heard, saw and are witnesses of these strange facts, and the question is only, "What made the clock strike?"

The Moultrie Banner says that Judge Pat-terson, of the county court, tells a good one on himself. The judge received a circular from a man in the north, which stated, for the sum and consideration of 25 cents, he would send a receipt by return mail—a sure way to get rich. The judge, being ambitious, sent for the valuable information. In due course of time he received a letter with the following advice: "Fish for fools as

OUR GREAT EXPOSITION.

"Will Be of Lasting Benefit."
From The Athens, Ga., Banner.
The success of the Cotton States and International exposition is assured. Atlanta has already subscribed over \$211,000 and the raising of that fund shows the enterprise of Georgia's hustling capital. It is largely an Atlanta exposition and will do Atlanta a great deal of good, but in its most important sense it will be a great and lasting benefit to Georgia. Every county in this state is directly interested in this exposition and should lend aid in every way possible to its success. It will be a splendid advertisement of the magnificent resources of Georgia and will, in a degree take the place of the exhibit that should have been made in Chicago. Each county in Georgia should at once perfect an organization whose duty it shall be to prepare a county exhibit for the exposition, and also to act in conjunction with the exposition authorities in doing everything that is necessary to make the exposition a grand and

growing success.

Memphis Commercial: It was decided last night by the democrats of the house of representatives, in caucus, that the committee on rules should report a rule giving the speaker the power to count a quorum. This determination has grown out of the apparent impossibility of securing the attendance of democratic members when an important vote is to be taken. There were strong protests against the resolution, bu it carried by a very large majority. Mr Reed's triumph is, of course, vary sweet. It was he who first declared that the majority should be permitted to do business, and the democratic caucus, by endorsing the proposition, has acknowledged the soundness of Mr. Reed's position. If the committee shall report the new rule, legisla-tive business will be facilitated immensely, for Speaker Crisp will be able to count a quorum independent of the roil call, it is a very dangerous power to put into the hands of a speaker, and no necessity for such a rule would have arisen had the democrats of the house striven to do their full duty by preserving a quorum whenever

AND COULD NEVER BE LED ASTRAY

A Great Commoner, a True Representative, a Typical American, and True to Every Trust.

A more popular man than Senator Vance never lived in the state of North Carolina.

His anecdotes are related all over the state and his picture adorns the cabi the humblest day laborer. Many of his admirers have named their children after him, and his name, in this way, will no

doubt be handed down from generation to

Baird Vance was born in the county of Buncombe, in the state of North Carolina, on the 13th of May, 1830. His father was a merohant of thrift and respectability and his mother a woman of

THE LATE SENATOR VANCE. plous culture as well as of respectable an-

His father died when he was quite young. with the loving and intelligent care which however, prevented her from giving him other education in his boyhood than was afforded in the country schools, in which Pike's arithmetic and Webster's Elementary spelling book were the chief textbooks. He read with great eagerness and was an apt and promising scholar. A gentleman fresh from the senior class of the university, traveling in Buncombe, was amazed at find-ing him so well acquainted with the litera-ture of Shakespeare and the Bible.

In 1852 young Vance went to the University of North Carolina and spent a year. He stood among the first in the branches which he studied. He also began the study of law and was shortly admitted to the bar. He made Asheville his home and soon commanded an excellent practice. He early be-came influential with the jury, humor and ready eloquence telling on the mind of the average mountaineer. He tells on himself with much glee the first compliment he received for his forensic enorts. "Zeb, if you can only get a past the judge, I'd as lief have you as any old lawyer." It was not long before his "getting past the judge" was not a subject of doubt.

Like most young men of active and ambitious minds, Mr. Vance went early into politics. He was elected to the legislature in 1854, where he was one of the most prominent among the young men, being an enthusiastic Henry Clay whig. His peculiar powers were not fully developed, however, until 1858, when he took the stump in op position to the late W. W. Avery as a candidate for the national house of representatives in the nountain district.

This district had once been whig. The

people, however, were devoted to Thomas L. Clingman, who for many years represented them in congress. When Mr. Cling-man swung around to the democratic side he retained his ascendancy, notwithstanding his change of base, carrying the district in 1837 by 2,000 majority over his whig op-ponent. When, in consequence of being promoted to the senate, he resigned his seat, it was generally thought that Mr. Avery, a man strong in debate and of influential family, would easily fill the va-cancy. When Mr. Vance announced his in-tention to oppose him, he was applauded for his gallantry but laughed at for his supposed folly. In this campaign Mr. Vance, then only twenty-eight years old, displayed those qualities of a stump orator and leader of men for which he is now so conspicuous and unequaled—quick at repar-tee, teeming with anecdotes, which he tells with happy humor; able to pass at will from mirth-moving fun to invective, elo-quence and pathos. By his power of pre-senting arguments and facts in an interest-

senting arguments and facts in an interesting light, his consummate tact and wining ways, "he stole away the hearts of
the people." He was elected by as large a
majority as the year before had been given
to his democratic predecessor.

In the following year David Coleman, another distinguished democrat, measured
střength with the young whig, but the
effort to diminish his majority failed. Coleman met the fate of Avery and from that

man met the fate of Avery and from that time Mr. Vance was supreme west of the Blue Ridge. In congress he was an active and watchful member. He took sides strongly and labored earnestly against secession. His appeals for the union in congress were nasterpieces of eloquence and oratory.

After the result of the agitation Mr.

Vance sided with his native state and was one of the earliest volunteers, marching to the seat of war in Virginia as a captain in 1861. It was not long before he was pro-moted. He was among the bravest soldiers of the war. In 1862 he was elected governor of North of the war. In 1862 he was elected governo-of North Carolina by an overwhelming ma-lority. As governor of the state he ex-hibited administrative and executive ability of the highest order. It became his duty to aid the confederate government in secur-ing and maintaining in its armies the mill-tary contingent of North Carolina. It was likewise his duty to assist, as commander-in-chief of the militia, in repelling invasion of its territory. It was his province to exe-

or its territory. It was his province to execute largely the functions of a war minister, and when the full history of the war shall be written, it will be found that he excelled all southern governors in vigor and ability in these regards. He kept his state up to the full measure of its obligation under the constitution of the confederacy. At the same time he was watchful that there should be no infringement of the rights of the state.

In the military should be subordinate to the civil powers. It should be known and remembered throughout the civilized world that all during the time when the confederacy was vainly fighting for life, and when one-fourth of the state was overrun by contenting armies, the great privilege of the writ of habeas corpus was never suspended. North Carolina had judges firm enough to sume that great writ, and a governor brave enough to enough to exemps, the mandates in the midst of conscript of company, the most of the midst of conscript of exemps.

even in the lines of troops drawn up in order of battle. While Mr. Vance took care that there should be no skulkers or deserters among those liable under the conscript law, he took equal care that all who claimed they were not liable, should have, on their petition, an impartial hearing before a judicial officer.

It was by his efforts, likewise, that supplies of clothing and other needful articles were regularly imported from England, through the blockading squadron at Wilmington. All during 1863 and 1864, the departure and arrival of the "Advance" were watched for with breathless interest by the soldiers of North Carolina, whose wants the confederate government could not supply. And when, in the excitement during the trial of Wirz for bad treatment of federal prisoners, efforts were made by the enemies of Mr. Vance to connect him with the sufferings of the Salisbury prison, an examination showed that he had been active in alleviating those sufferings.

During 1864 there sprang up in North Carolina a reactionary party, headed by Holden and others, composed of those who had despaired of the success of the confederacy. But Governor Vance took the ground that the power of making peace had been devolved on that government, and that any separate state action would bring not only disgrace but ruin to the state. He, therefore, struggled with unfaitering constancy for southern success until the surrender of General Johnston to General Sherman.

He was arrested after the close of the war, and suffered imprisonment at Washington on account of his prominence in the struggle, but on examination of his letter-books and other documents it was found that his conduct in the struggle was according to the rules of civilized warfare, and, the sentiment of the north being against personal punishment for treason, he was honorably discharged.

Governor Vance then returned to the practice of his profession, making Charlotte his home.

to take his seat. In 1872 he was the nominee of the democratic party of the legislature for the same high office, but was defeated in the election by a coalition between a few friends of Judge Merrimon and the republicans. He was nominated for governor of North Caro-lina by the democrats in 1876, and was elected by a large majority over his opponent, Judge Settle. This canvass will long be remembered in North Carolina. He received the degree of LLD. from Davidson college in 1867. In 1878 he was again the nominee of his

#### FUNERAL ARRANGEMENTS. Services in the Senate Chamber Today.

To Be Taken to Asheville. Washington, April 15.—With the exception of the naming of the congressional committee to accompany the body of the late Senator Vance to its last resting place, the arrangements for the funeral have been made. The congressional committee will be named at noon tomorrow upon the assemb

The body of Mr. Vance will be taken from the residence to the capitol at 2 o'clock tomorrow and will lie in state in the marble room. At 4 o'clock brief services will be conducted in the chamber of the senate by Rev. Moses D. Hoge, of Richmond, assisted by Rev. A. W. Pitzer, both of the Presbyterian church. After the services the remains will be taken to the station of the Richmond and Danville road, where they will remain until 10:43 o'clock under a guard composed of North Carolinians em-

ployed in the various departments. At the time indicated a special car atthe city. The funeral party will reach Raleigh at 10:20 o'clock Tuesday morning and the body will lie in state at the capitol building until 4 o'clock in the afternoon, when the train will be taken for Asheville, which will be reached at 6 o'clock the next morning. The body will be interred at 10 o'clock in a lot selected by the late senator on the south side of the mountain overlooking the city. The congressional party will

return Thursday morning. A meeting of the North Carolina delegation was held this evening at the Metropolitan hotel, when it was agreed to suggest as members of the congressional committee representatives S. B. Alexander, W. will go to Asheville with the party. Many telegrams of condolence were re ceived by the family today, and among the callers at the residence were Vice President Stevenson, Speaker Crisp, members of the cabinet and a great many senators and members of congress. Among the telegrams received were those from Governor Carr and Mayor Thomas Badger, of Raleigh Hon. C. M. Busbee, postmaster at Raleigh, a man prominent in the politics of his state and who married a niece of Mr. Vance, arrived this evening and will return to Asheville with the funeral party.

TO LIE IN STATE

In the Capitol at Raleigh Five Hours, Tuesday.

Raleigh N. C., April 15.—(Special.)—News of Senator Vance's death, though expected, was yet a great shock to North Caro-lina. Early this morning Governor Carr

officially telegraphed Mrs. Vance as fol-"The people of North Carolina mourn with you in the loss of her most distin-guished son, and today, throughout the state, the hearts of her people are sym-pathizing with you and yours in this great

affliction." The governor also sent Mrs. Vance a private telegram, saying:
"My family join me in sincerest sympathy
with you and yours in your great affliction"

The council of state met this morning and sent the following telegram to Mrs.

They will lie in state five hours in the capitol, which will be draped in black, and will be guarded by veterans and state troops. The body will leave here for Asheville Tuesday afternoon, and will be buried there Wednesday. There will be a great many persons both here and at Asheville, and the ceremonies will be imposing. The pastors of many churches referred to Senator Vance in their services today, and prayers were offered for his family in the Presbywere offered for his family in the Presby terian church here, of which he was for

Asheville in Mourning.

Asheville, N. C., April 15.—Senator Vance's death was a great shock to Asheville. The whole city is plunged in mourning. All the flags are at half mast, and the courthouse is draped in black, with a large oil painting of the senator hanging on the outer wall of the building, wreathed in white flowers. The announcement of his death was made in all the churches of the city at the morning service.

Special memorial services were held in the First Baptist church this afternoon. The building is the largest in the city

the First Baptist church this afternoon. The building is the largest in the city and was packed, and many prominent citizens of all parties delivered eulogies. Committees were appointed to draft resolutions, to arrange for the funeral which is exepected to be in this city, and to meet the remains on arrival. A monster memorial meeting for the whole of western North Carolina has been arranged for, and will probably occur Friday. Senator Vance's first wife, his father and mother and one child are buried in Asheville.

VANCE'S SUCCESSOR. It Is Thought Governor Carr Will Ap-

point a Populist. Charlotte, N. C., April 15 .- (Special.)-The death of Senator Z. B. Vance, in Washington, last night, is a sad blow to North Carolina and a terrible blow to the democratic party in this state. His condition, although known to be very feeble, still none of his friends in this state thought that the end was so near. His death will, in all probability, cause a wide breach in the party, from the fact that his successor is more than apt to be a populist, or,

at least, a devout allianceman. While Senator Vance had, to some extent, favored certain schemes that the populists endeavored to inaugurate in the south, still his former democracy and the great love that his people had for him overbalanced his shortcomings as regards to the alliance. Some attribute his queer actions in the past year to childishness, but the more generous are loath to believe that he departed from his duty in a single instance.

Already candidates for the dead sena-

tor's shoes are springing up and even at this early date six prominent North Carolinians are in the race as his successor. Governor Carr, to whom the appointing power will fall, is a strong allianceman, and was at one time president of the state alliance. His views on public questions are about the same as the populists of the west and it is a foregone conclusion that his appointee will hold the same views as he does. Governor Carr himself has a senatorial bee in his hat, but he is willing to wait a few years before he makes the race. The list of formidable candidates would be a long one, but those most prominently mentioned are Congressman S. B. Alexander, of the sixth congressional district; Assistant Justice A. C. Avery, of the supreme court; Judge R. F. Armfield, 'of the superior court; A. Leazar, ex-speaker of the legislature; Attorney General F. I. Osborne, brother of Assistant District Attorney James Osborne, of New York; Hon, W. W. Robbins, whose claims were pushed for the Mexican mission, and Associate Justice Armistead Burwell, of the supreme

Of the seven mentioned Congressman Alexander, it seems, will have the biggest pull on the governor. Governor Carr succeeded Alexander as president of the state alliance, and it was mainly through Alexander's influence that the two factions of the democratic party came together in the convention that gave to Carr the gubernatorial nomination. Therefore, the governor must feel under obligations to Congressman Alexander, and many think he will tender him the nomination and, of course, he will accept. The next strongest man is Mr. He and the governor are great friends and both are large farmers. Their devoted friendship, it is thought, is a big

drawing card for Mr. Leazar just now. Associate Justices Avery and Burwell are strong men and will have a large backing for the position. Judge Armfield stands well with the governor and his friends will use every effort to further his case. Attorney General Osborne is recognized as one of the ablest lawyers in the state and his exceeding popularity and hosts of friends will make one of the leading candidates in

HON. ANTONE KONTZ

Remembers General Slocum and Talks of Him. General Henry W. Slocum, who died in New York Saturday, is remembered by many of those Atlantians who by fortunes of war were unable to get away from At-lanta during Sherman's occupancy of the city. General Sherman was here at the time, and his kindness to the people was

in marked contrast to the severity to which, they were subjected by General Sherman.

Mr. Antone Kontz has a very vivid and a pleasant memory of General Slocum. Mr. Kontz was living on Marietta street, in the same house in which he now resides. At that time the invading army was exceed-ingly troublesome, and the individual mem-bers of it entered the residences and plun-

dered at their will.

One day a soldler entered Mrs. Kontz's residence and told that lady that she would have to vacate at once and turn her residence over to the officers to be used as and officers' headquarters. With her son Antone, who was at that time quite a youth, she went to General Slocum's head-quarters, which were located near where Dr. Calhoun's residence now stands.

or. Calhoun's residence now stands.

"General Slocum received my mother with
marked courtesy," said Mr. Kontz, in speaking of the incident. "She told him what
had occurred, and in a most gentlemanly manner he assured her that she should not be molested, and, to carry out his orders, his own bodyguard was sent with us to our residence to disperse the soldiers. The invading soldiers were carried off, and a special guard was detailed to watch our home and that of General Austell, next door."

The meeting will be held at exposition headquarters in The Constitution building. A full attendance of subscribers is urged. If you cannot come send a proxy, for it is necessary that there should be no delav in this important matter of organization under the charter.

Today is, under the terms of the articles of incorporation, the first day when organization is possible. The nucleus fund has been raised, the work has been well started and now all that remains to be done is to push forward as speedily and as energetically as possible. The matters to be considered this morning

are, naturally, of much importance to the exposition movement and a full meeting is A STUNNING BLOW.

Patrolman Flynn the Victim of a Shocking Attack Last Night. A man stealthily followed Patrolman John Flynn along Spring street last night about 10 o'clock. The man carried a heavy brickbat in his hand. Suddenly as a dark place was reached the man lifted his hand and hurled the brickbat at the unsuspecting

officer with a force that was frightful. Flynn fell heavily forward, unconscious. The unknown white man dashed off into the dark. Young Mr. Simpson, who was with Officer Flynn at the time, stooped over his comrade, expecting to find him dead. And in point of fact the officer was almost gone. The blow was a powerful one and in falling the officer struck upon his face, skinning and bruising it fright-

Patrolman John Flynn is perhaps the youngest officer on the force. He was elected about two years ago and has made a model officer, faithful, attentive to duty and thoroughly reliable in every respect. Last night, in company with a young man named Simpson, Patrolman Flynn went to Barclay's mission. He was dressed in citizen's clothes and no one unacquainted with him could have told that he was an officer.

with him could have told that he was an officer.

Flynn and Simpson remained at the mission until services ended. They walked up Marietta street to Spring on their way to Mr. Flynn's boarding house on Courtland avenue. They walked leisurely along conversing pleasantly as they went.

Near the corner of Luckie street they met some people going home from church, as they supposed, and speaking to them, walked on. They were acquainted with some of the persons in the party. They had just passed the party, when a man crept close behind Patroiman Flynn, and raising his hand, sent the brick with deadly aim at the officer's head.

The officer tumbled to the sidewalk, face first. He was rendered unconscious by the blow for several minutes. Simpson thought him dead. Quite a crowd collected around and after a few minutes Flynn was taken home, Dr. Simpson was called in and stated that he could not give any definite opinion as to the officer's wounds.

The man who struck the officer wore a cap and had a handkerchief tied about his neck. What actuated him to do the deed is a mystery. The police suspect some one and are working on a theory which they have formed as to the man's identity.

#### FULLY ARRANGED.

taugua This Summer.

An Array of Talent Never Before Sur-passed-To Be Held at Ponce de Leon Springs.

The management of the Atlanta chautauqua assembly have about completed the programme for the coming season.

Last year they gave the citizens of Atlanta the finest series of lectures and entertainments that the city ever had. By many it was highly appreciated. prominent banker said that he considered it equal to a six months' schooling for his

Notwithstanding that last season was not a financial success the management believe that it is a work that should be perpetuated, and furthermore feel confident that it will be sustained and supported

that it will be sustained and supported by the good people of this thriving city. On the strength of this belief they have again assumed the responsibility of pre-paring a most wonderfully attractive and expensive programme. A company was organized last year and known as the Atlanta Chautauqua Assem-bly, and a charter granted, but only a small portion of the capital stock (\$5,000) was subscribed. was subscribed.

was subscribed.

It is now proposed to complete the subscriptions to the stock and thus put the organization on a sound financial basis.

The enterprising and progressive people of this city can manifest their approval of this movement, and show their apprecia-tion of the same, in two ways, at once. First, by subscribing for one or more shares of stock-\$25 per share-or by applying for

season tickets. Last year a great many made a mistake in failing to secure season tickets, which accounts for the number of applications for them the management have already re-

ceived for the coming season.
Subscription to the Stock. Persons subscribing to one or more shares of stock will be furnished with season tickets for their immediate family, receiving credit for the stock and being charge

for the tickets.

Season Tickets. The price for the tickets for the entire assembly, covering between forty and fifty entertainments, has been fixed at the low

price of \$3.

The management have decided to limit the sale of the season tickets to 500. Applications for these tickets will be recorded as soon as received, and the tickets will be ready for delivery about June 15th, payable on delivery.

As already stated quite a large number

have aiready been engaged, and persons desiring them, should not delay making application, either to the secretary, Mr. H. T. Trowbridge, F. B. Shepard or T. J. Kelly, at The Constitution office.

Programme. The programme, as far as completed, is as follows:

John DeWitt Miller, of Ashtabula, O.—
John DeWitt Miller, of Ashtabula, O.—
Topics: "Our Country's r'ossibilities and
Perils," "Love, Courtship and Marriage."
Colonel L. F. Copeland, ararrisburg, Pa.—
Topics: "Snobs and Snobbery," "What's to

Hinder?" W. Bain, Lexington, Ky.—Topics:
"Boys and Girls, Nice and Naughty; or the Pendulum of Human Life." "Among the Masses, or Tracts of Human Character." Samuel Phelps Leland, Ph.D., Chicago, Ill.—Topics: "World Making," "The Wonders of a Sunbeam."

Professor S. M. Spedon, Artist, New York.—Drawing, talking, recting and sketching, Topics: "Character and Characteristics," "Taings We Wonder At," "Art Talks."

James S. Burdette, New York-As an imdames S. Burdette, New York—As an impersonator, reader, rectier and entertainer, Mr. Burdette is not excelled.
George Thomas Dowling, Boston, Mass.—Topics: "The Good Old Times." "Clambering Up, or Forces That Win."
In addition to the above, negotiations are pending with ex-Congressman Horr, and other nen of national reputation, besides several southern men of note, among them ex-Governor Bob Taylor, John Temple Graves, Rev. Sam Jones and Professor Charles Lane.

Musical Attractions. The famous Schubert male quartet, of This quartet has appeared on the same platform this season with the Schuberts, who filled an engagement here last season and are pronounced by critics far superior In fact there are none better. Atlanta wants the best as usual. Alies Hortense Pierce, prima donna soprano, of New York. Miss Pierce has a national reputation as a vocalist. A musical writer of note says of her: "She is probably the most versatile singer now in New York." She is young and a remarkably handsome blonde, and with her unaffected manners, has a most winning stage presence. She is under contract for the entire season, beginning

D. W. Robertson's Combination. This eminent musical artist will appear in a unique and entirely original pro-Musical silver sleigh bells, Swiss gramme. Musical silver sleigh bells, Swiss staff bells, royal hand bells and other com-binations. Mr. Robertson appeared with his company during the season of '92 at thirteen chautauquas, which speaks for its

popularity.
The Fifth Regiment band will take part in all concerts, appearing several times during the assembly.

A fine chorus will soon be organized. It Is 'expected the chorus this year will be limited to 200 voices, and none will be ad-mitted except such as give evidence of a

fair degree of musical talent. Further announcement of this matter will be made in a few days. It has been definitely settled that the assembly will be held this season at Ponce de Leon springs, satisfactory arrangements having been made with the owners of that property and the Consolidated Street Railway Company, and contract signed.
The foregoing statements ought to, and
we believe will, arouse the enthusiasm of
all lovers of chautauqua work, as well-as all who believe in advancement along the line of education and general improvement of a people, and we bespeak for the chau-tauqua management a grand success for

the coming session.

Interesting Sermons Preached in Atlanta Yesterday.

ALL OF THE CHURCHES WELL FILLED

Dr. Quigg at the Central Presbyterian and Dr. Dickinson at the Fourth Baptist Church

Divine worship in all of the churches of the city yesterday was well attended. Several of the pulpits were occupied by

the members of the puresbytery recently in session at West End, and able sermons, full of gospel beauty, were preached.

Dr. Dickinson, of Selma, Ala., who has been assisting Dr. Hawthorne in the revival services now in progress at the First Baptist church, occupied that pulpit yes-terday morning and preached a sermon of

At the Central Presbyterian church Dr. Quigg, of Conyers, Ga., preached an able sermon yesterday morning.

The music at this church yesterday was well rendered and the selections beautiful and appropriate, thanks to the good taste of the organist and director, Mr. Mayer. Indeed, it has been repeatedly remarked Indeed, it has been repeatedly remarked by visitors that the music at this church was better selected and of a higher class than in almost any other church in the city. Dr. Strickler, the pastor, preached for Rev. T. P. Cleveland, of the Fourth, so his place was taken by Rev. Henry Quigg, D.D., of Conyers, well known here as an eloquent preacher, an able man, and a prominent member of the Soctch-Irish Society. Dr. Quigg took for his text Matt. xxv, 14, 15: "For the kingdom of heaven is as a man traveling in a far country, who called his own servants and delivered unto them his goods. And unto one he gave five talents, to another two and to another one, every man according to his several ability."

man traveling in a far country, who called his own servants and delivered unto them his goods. And unto one he gave five talents, to another two and to another one, every man according to his several ability."

He said, in substance: Diversity and variety seem to mark all the works of God. In heaven there is one glory of the sun, and another glory of the moon, and one star differeth from another in glory. On earth the same thing is seen, the rivulet of the ocean, the little hill and mighty mountain, and also in the animal and vegetable creations. Turning to man, we find three great races, and these races differ widely from each other and among themselves. All this illustrates the language of the text, that man is given diverse gifts by God, each receiving according to his original endowment. In the parable chosen as the text there are three leading thoughts. I. All that, we have, ourselves included, comes from Gog, and to Him we are responsible for a right use of it. Second, if we are equally faithful in the discharge of our duties, according to our talents received, we shall receive equal rewards. Third, poverty or fewness of talents furnishes no excuse for idleness.

We are not our own; we are bought with a price. We are born in His house and bought with His money. All that we are and have are His. These gifts are bestowed according to our several abilities, so that each receives all that he can make use of. Many kinds of people are needed, and many kinds are made. Instead of all being made alike and some filled, others half filled, like different vessels of water—each, though differing, is perfect, as a small circle is as perfect as a large circle. Diversity is necessary. All cannot be captains; all the members cannot be the eyes, and if each performs several duties the highest good will result. You may use these talents in different ways, be niggardly with them, or liberal; do good, or evil; corrupt others with them, or use them to save; waste them in wicked sports, or always to do some good. Some wickedly

But they who have only one talent think the most modest thing they can do with it is to do nothing. But this is wholly contrary to Christ's spirit. Remember what He said of the widow's two mites and of the deed of the woman who broke the alabaster box of ointment, which perfumes the whole church today. This man makes an excuse that is no excuse. If he did not krow how to use bis talent, he should have united it to that of another man who would have known how to use both. Nothing, not even money, is of any good unless it is used. Those who do no great wrong, who merely do nothing with their gifts, much less those who misuse them, are punished as certainly as the greatest sinner.

Do not fail to work because you can only do little. Andrew only called Peter to Christ, and yet because of that he was preaching always whenever that eloquent man preached. A great lecturer, to show the use of small things, told how a kind man had patted a street gamin on the head and added, "and now that gamin stands before you."

If we would be rich, we must be diligent, if happy we must make others happy. It was by dividing that the bread increased

If we would be rich, we must be diligent, if happy we must make others happy. It was by dividing that the bread increased in the miracle, and the widow's oil by being poured out. He that would be great must serve, and he that would be greatest, the servant of all.

The lesson of today is that our gifts are given us to be used for our fellow men, and if we use them aright we shall receive the highest award.

First Christian Church. The subject of Dr. Williamson's sermon yesterday was "An Earnest Question—A Satisfactory Answer." The lesson was based on Luke vii: 19-21. In substance the

minister said:
"This wonder-crowded universe of God is full of things beautiful. Truly to him who has the eye to see and the heart and mind to appreciate it do the heavens declare God's glory and the firmament showeth His handiwork. The mightiest and minutest of God's creation challenge our admiration God's creation challenge our admiration and evoke our wonder, whether it be a splendid planet whirling in majestic sweep along its shining pathway or a modest violet blooming in beauty and fragrance at our feet; whether a tiny rivulet leaping from a crystal spring adown the mountain side or the awe inspring ocean with its ceaseless pulsations and its white-capped waves galloping shoreward; whether a smiling vailey with its waving fields of golden glory or a cloud-capped, sun-kissed mountain inducing the reverential feeling of the sublime—these are but a title of the grand and beautiful things that a Creator's mighty hand has lavished upon His creatures, and yet nothing in our eyes is so grand, so signally sublime as a great, a noble and a splendid life, unselfish, pure and sacrificial. The sublimity of the royal peaks of eur Rocky mountains is great, but they cannot help themselves; they have no volition in their loftiness, but a sublime life is one which might have groveled in the dirt, but which voluntarily walks amidst the stars. A great man is God's greatest handiwork. True greatness consists in that noblity of soul and character which God admires and endorses. The things that are highly esteemed among men are an abomination in the sight of the Lord. We see the outward, God the inward. The outward may be a whited sepulcher. The inward may be full of dead men's bones.

"Among the multiplied millions of men and women who have lived and blessed the world none are mightler than those mentioned in the Word of God. What man had a higher mission in olden times than Abraham, to whom was committed the exalted duty of glorifying faith? Who has impressed himself more on the civilization of the world than Moses, the great lawyer? Who wrote more beautiful poems than we find in Job and sung sweeter poems than David, and yet Jesus said of John the Baptist that of woman born no greater prophet than he had risen, although he had is least in the kingdom was greater than he. John is in the dawning of the lay, the noontide of and evoke our wonder, whether it be a

"Our lessen is taken from the intensest beriod of the intense life of the wonderful man. John was the harbinger—the forerunner of Christ. He was a great man with a great mission. He was the wilderness voice calling men to repentance and preaching with marvelous effect of the coming of the strangs man. Beneath the product of the strangs man. NINE MEN WERE IN THE PLOT

The Lives of All the Prisoners Endanger ed-But for the Timely Discovery & Holocaust Might Have Resulted.

A CELL ON FIRE.

Cell No. 19 of the Fulton county jail was the scene of an attempted escape late yes terday afternoon, which endangered the lives of every person in the prison, and which, if it had not been discovered, might have ended in a frightful holocaust.

Just after 4 o'clock yesterday afternoon Jailer Peter Lambert discovered a blazing fire in the roof of cell 19. The flames had aiready eaten through the thick wall, and made an opening about two feet square The blaze was crackling smartly and seem-

ed bent upon devouring the dry material with which it came in contact. It was with difficulty that Mr. Lambert and Mr. Mardis, assisted by several of the prisoners, extinguished the menacing fire. The discovery of the fire caused such excitement in the jail that no one thought of

summoning the fire department.

After the fire had been put out a large black hole—large enough for a man to get out without difficulty—was left. Escape would have been a matter of ease with all guard removed. A bright shaft of daylight streamed through the opening that the flames had made. The jailers were not slow to suspect that

the burning was the work of some of the prisoners. When the danger was over they began an investigation among the prisoners, and the disclosure was soon made that a deep conspiracy had been entered into by nine of the prisoners and the burning was done with the hope of escaping.

In the cell in which the fire occurred were

three negroes when the jailers made the discovery. They were John Harris, Will Turner and Will Davis. All of these are notorious negroes and have to be constantly watched by the jailers. They are regarded as desperate men. Turner is charged with murder, and the other two are in on very serious charges.

serious charges.

The prisoners were very reticent in talking about the conspiracy, but the jailers
finally got them to tell about it. The negroes seem to have been incited to burn
the hole in the top of the cell by six white men who wanted to escape. The plot was very thoroughly discussed and prepared, and every preliminary necessary to the success-ful carrying out of it was made.

The white men who originated the plot and selected the three negroes already nam-ed as promising accomplices in the carrying out of the plot are Charles Johnson, J. E. out of the plot are Charles Johnson, J. E. Jackson, Lewis Belcher, Jim Jones, J. A. Kennedy and Bill Gober. Gober is the Manchester man who is charged with killing a negro named Pease last summer, and Jackson is the typewriter swindler who is serving a jail sentence from the United cotates court.

These men have had a scheme laid to escape jail for several days. They have talk-

cape jail for several days. They have talked the matter over in the quietude of their cells, and after getting things in ship shape they enlisted the services and the sympathy of the three negroes. They selected the negroes by reason of their daring and well known character for desperation in times of danger, and as events proved their se-

lection was not a bad one.

Sunday was selected as the best day for carrying out the bold plan, as that day is largely taken up by the visits of mission aries to the jail. The three negroes in question got together in ceil 19 and went to work vigorously to carry out the plan that had been laid for them.

One of their number had ingeniously devised two small sharp saws out of a piece of metal taken from a value, and with these of metal taken from a valise, and with these they started to saw out. It was slow work, and after they got the timber slighly splintered they saturated a heavy woolen blanket with grease, and stutting it in the slight aperture, set it on fire.

By slow degrees they sawed and burned until quite a large-sized opening had been made. Finally the fire got to blazing and cracking in such a lively manner that Jailer Peter Lambert discovered it on one of his rounds. He was quick to act and soon

At Merritt's Avenue Church.

At Merritt's Avenue Church Dr. Hopkins's text was Philippians ii., 12 and 13: "Work out your own salvation with fear and trembling, for it is God that worketh in us both to will and to do of his good pleasure."

In the discourse Dr. Hopkins gave a clear interpretation of this difficult text, which seems to convey a contradiction in itself. When we are told to work out our own salvation we are startled to learn that it is not our own work, but God's work after all. The human will, which stands the character of all minds on all matter, was examined and well explained. Human action, doing the activities of this world, are all subjected to the will and these acts are but the results, the physical interpretation of the judgments of the will. We learn that to will is one thing and to do is another. The first clause of the text in reference to fear does not indicate superstitious terror. The fear which is wholsome is that of caution, solicitude to do right, or fear of wrong doing of itself without regard to any consequent punishment. The true teacher meets his class with fear, mindful of the responsibility of his task. The physician never meets a patient except in fear; the competent clerk or bookkeeper fears lest his inattention or wrong entry may cause loss to the business entrusted to him. With like caution we are to work er Peter Lambert discovered it on one of his rounds. He was quick to act and soon he had the fire extinguished. He then conducted an investigation which disclosed the facts already stated.

When the plot was confessed to the jallers, the nine men implicated in it were taken from their cells and carried to the basement of the jail, where they were locked in the dark dungeon. They were kept in the angeon all night as the penalty for their offense. Cell No. 19, which is on the right hand upstairs tier, was locked securely to rears lest his inattention or wrong entry may cause loss to the business entrusted to him. With like caution we are to work out our own salvation. The fear of the Lord is the beginning of wisdom.

So, through all the leading lines of thought suggested by the text, the doctor led the people on to a clear realization of the responsibilities of like and to know that upon them, with God's help in the work, depend the salvation of their own souls and the redemption of the world.

At the Sixth Baptist. offense. Cell No. 19, which is on the right hand upstairs tier, was locked securely to prevent the escape of any one.

One of the prisoners implicated confessed the entire plot. He said it was the design of the nine prisoners to get away last night. Mr. Lambert's timely discovery prevented that. It is likely that they will be indicted for arson. Jaller Mardis searched the jail thoroughly last night and found an iron rule and one or two other articles. He will search further today.

At the Sixth Baptist.

Unusually interesting services were held at the Sixth Baptist church, corner West Hunter and Mangum streets, on yesterday at 11 o'clock a. m. The newly-elected deacons, Brother Metts and Brother J. A. McCoy, were ordained. Dr. Brittian preached the ordination sermon and, as his sermons always are, it was grand.

Dr. Hatcher, of the Second Baptist, was present and took a part in the ordination services. The door of the church was opened and one received by letter. The Sixth is growing and much good is being accomplished through the earnest work of the pastor, Rev. A. C. Ward. The regular services of this church are as follows: Sunday school at 9:30 o'clock a. m. Preaching at 11 o'clock a. m. and 7:30 o'clock p. m. Prayer meeting every Wednesday night. Young people's meeting every Friday night. Everybody cordially invited to these services.

Church of Our Father. Church Today at Noon. The funeral of Mrs. Drury J. Powers, whose sad death occurred at an early hour the Second Baptist church today at noon. In the death of this noble woman not only the immediate home circle has been invaded, but a wide community of friends and relatives in this city and throughout the country. The announcement, which was read in several of the churches of the city yesterday, was heard with a mingling of surprise and sorrow. To many of her friends it was not even known that she was ill. When the good and beautiful pass away there is left behind in many hearts a well of deep and abiding sorrow. It is a dark and mysterious providence that takes away the young and happy, at a time when lite is full of hope and everything partakes of the varied hue and beauty of the summer rainbow; but there is consolation in the fact that heaven is the appointed dwelling place of such rare spirits, which have only tarried upon the earth in passing.

The following gentlemen will act as pall-bearers: Messrs. W. J. Montgomery, C. D. Campbell, L. W. Collier, Loyd Parks, Charles Nunnally, Floyd Johnson, Charles F. Wurm and W. J. Kendrick.

The funeral services today will no doubt be largely attended. vesterday morning, will take place from the Second Baptist church today at noon. give to the world or to their neighbors have at least sympathy, kind words and noble thoughts to offer tothe world and these gifts they should not withhold. They must not say "gold and silver have I none," and therefore withhold their gifts, because they have no material, tangible gift to offer. The rich man might come and say I have only material aid to give, and the material gifts are all well and good and without them not much can be accomplished, but they are after all not the most important. Where ideal gifts are withheld the material gifts will not do much good. The ideal gifts, ideas, thoughts and kind words are of much more importance. Jesus gave no material gifts to the world and yet what He has given to us is more than all the gold and silver in the world. These good thoughts, good words and services we all can give, and hence it is our duty to give them.

During this week services will be held at 4 o'clock p. m. and 7:45 o'clock p. m. each day. The singing is confined to the old Methodist hymns, sung by the congregation, no choir taking part therein. This plan seems to grow in popularity, especially among those who sing, and all are expected to join in the singing.

Yesterday at 11 o'clock Dr. Lewis preached a deep, searching and strong gospel sermon on the same line of his revival sermons. He had a large audience, who seemed to greatly appreciate the doctor's strong words denouncing sin.

FOURTH ANNUAL MEETING TO BE HELD

And the Surgeons Will Discuss Various Things Whie Are for Their Good.

Will Be an Important Meeting.

The Association of Georgia Central Railroad Surgeons will meet at the Kimball house tomorrow morning at 10 o'clock. The association is composed of the local surgeons of the road who come together once a year just before the State Medical Assoclation convenes. It is composed of the best men in the various sections of the state where they work and the annual gatherings are for the purpose of consulting as to the work and discussing such matters as fall under their observation and practice from day to day in doing the work for railroads This is the fourth annual session of the association and it will be one of the most important in the history of the body. The chief surgeon of the Central system,

Dr. Elliott, of Savannah, is the president of the State Medical Assocation, which meets in Atlanta day after tomorrow. Dr. North, of Newnan, the president of the assocation, will call the body to order, and Dr. Howard Williams, of Macon, the secretary, will be at his desk. Notice of election for determining upon the issuance of seven thousand dollars of school bonds, by the town of East Point: To the People (Qualified Voters) of the Town of East Point: At a regular meeting of the common council of said town, held on the 10th day of April, 1894, the following or-dinance was unanimously adventiged

Town of East Point: At a regular meeting of the common council of said town, held on the 10th day of April, 1894, the following ordinance was unanimously adopted, viz: "An ordinance to hold an election to determine upon the issuance of seven thousand dollars of seven thousand dollars of seven thousand dollars of schoolhouse bonds, to provide for the registration fo voters at said election, and for other purposes."

"Whereas, The common council of the town of East Point, in Fulton county, Georgia, deems it advisable to issue seven thousand dollars of bonds to be used exclusively for the purpose of building a school house in said town, if proper authority is first had therefor, and the constitution and laws of said state, viz: Paragraphs one and two of section seven of article seven of the constitution, and sections 508 (i) to 508 (m), inclusive of the Georgia code of 1882, and the new charter of said town, being an act of the general assembly approved by the governor on the 8th day of September, 1891, and an act of the general assembly approved by the governor on the 11th day of December, 1893, require the submission of the question of the issuance of said bonds, approved by the governor on the 11th day of December, 1893, require the submission of the question of the said town, therefore, "Section 1. Be it ordained by the common council of the said town, on the 22d day of May, lost, to determine whether there shall be issued seventy bonds, of the denomination of one hundred dollars each, aggregating seven thousand dollars, bearing interest at the rate of 6 per cent per annum, the interest to be evidenced by proper interest coupons attached to each bond, such interest to be payable on the first day of July and January of each year, none of the principal of any of said bonds to be payable, and also at which time all of said bonds to the payable, and also at which time all of said bonds shall be fully paid off, to be used exclusively for the purpose of building a schoolhouse in said town, by the

Point.

"Section II. Be it further ordained that said election shall be held at all the voting or election precincts in said town, by the same persons and in the same manner, under the same rules and regulations that elections for officers of said town are held, and the returns shall be made to said common council of the town of East Point. Those voting for said bonds shall have, upon their ballots the words, For Schoolhouse Bonds, and those voting against said bonds shall have upon their ballots the words, 'Against Schoolhouse Bonds.'

have upon their ballots the words, 'Against Scnoolhouse Bonds.'
Section III. Be it further ordained that all qualified voters of said town shall be entitled to vote at said election who Mall register with the clerk of said council between the time of the opening of said books of registration, which shall be immediately after the passage of this ordinance, and the closing of the same, which shall be the hour of noon on the 21st day of May, 1894, the day preceding said election. And any other voter whose name is not on said registration list, who, for any reason save his own negligence, has failed to register, but who is otherwise entitled to vote, shall be allowed to east his ballot upon taking and sub-

negligence, has failed to register, but who do otherwise entitled to vote, shall be allowed to cast his ballot upon taking and subscribing to the oath required of those who have registered before the manager of election. Which oath shall be filed with said clerk, and the name of such voter shall be entered on the registration book.

Section IV. Be it further ordained that if said bonds are authorized and subsequently issued, an annual tax shall be assessed and collected sufficient in amount to pay the principal and interest due thereon, in accordance with their terms as above set forth. "Section V. Be it further ordained that

"Section V. Be it further ordained that notice of said election shall be given by the publication of a copy of this ordinance in The Atlanta Constitution, a newspaper in said county in which the shariff's advertisements are published, for the space of thirty days next preceding the said 22d day of May, 1894, the day of election, and the mayor and clerk of said council are required and authorized to have the notice given of said election, as above provided for Notice is hereby given that the said election will be held on said 22d day of May, 1894, in the manner, and for the purpose in said ordinance provided.
